WASHINGTON, July 23, 1869.

NEWS FROM CUBA.

Advices received in this city from leaders in the Cuban army to the 15th state that on the 13th and 14th the troops of General Quesada, stationed between Puerto Principe and Nuevitas, were attacked by General Letona, and in both instances were repulsed, on the first day with a loss of fifty killed and wounded, and on the second with over one hundred. The Cubans retain their position in the siege before Puerto Principe. The troops under Gen. Faguerro, of Gen. Jordan's command, occupying a position some forty miles from St. Jago de Cuba, were attacked on the 12th by Spanish forces of over 1,200, and said to have been commanded by Gen. Valmeseda in person. After three hours' fighting the Spaniards were compelled to give up the attack. Next day, having been reinforced, the Spanish General renewed the attack with great vigor. Three assaults were made on the Cuban position, but in each the Spaniards were repulsed. In the last attack their loss was so great that they were compelled to precipitate a retreat. Gen. Jordan participated in the second day's fight. The loss of Cubans is set down at sixty-two killed and wounded. Among the killed were two officers. The Spanish loss is reported to have been over three hundred. They made good their retreat to St. Jago. The Cubans are in good spirits and affected but little by the cholera and vomito so prevalent among the Spanish troops.

DECISION BY THE TREASURER.

The Secretary of the Treasury to-day decided to permit the substitution of ten-forties for five-twenties, or the exchange of any gold bearing bonds now held as security for circulating notes on the basis hitherto adopted, the ten-forties to be received at eighty-five per cent. of their par value, and all other gold bearing bonds at ninety per cent. Six per cent. currency bonds issued by the United States to the Pacific Railroad will not be received as security for the circulation of national banks, and the exchange of the gold bearing bonds is subject hereafter to revision, if it shall be found that such exchanges are so frequent as to become onerous to the Department.

FENIAN MATTERS.

Colonel Warren called yesterday upon Secretary Cox and Postmaster General Creswell, and had a talk with them about Fenian matters. The Colonel has now seen every member of the Cabinet except Secretary Rawlins, and has found them all favorable except Attorney General Hoar. He believes that some decided action, one way or the other, must be soon taken by the Administration on the subject, and from the opinions expressed by different Cabinet members it seems that he expects the action will be favorable to the rights of naturalized citizens.

GOLD SALES.

The Secretary of the Treasury, on being questioned on the subject, replied that he had no intention at present of selling gold, and that he did not expect to sell any while the premium was at the present figure. The impression at the Treasury is that it will go lower. This seems to be founded on the fact that United States bonds have advanced in Europe in consequence of the favorable exhibit of Secretary Boutwell's financial management, and that by the time there is a demand for the shipment of gold the crops will be ready to bring into market.

REVENUE SEIZURES.

The officer in charge of the Richmond, Virginia, Revenue District has reported to the Internal Revenue Bureau the seizure of rectifying establishments valued at ten thousand dollars, for violation of the revenue laws of the United States.

MR. BOUTWELL'S POLICY.

A letter received here from an American gentleman traveling in Europe, alludes in warm language to the beneficial effect of Secretary Boutwell's policy in strengthening the credit of our Government abroad.

REVENUE DECISION.

The Commissioner of Revenue decides no tax can be levied upon sales of loan of building associations.

NEW CURRENCY.

One hundred and twenty thousand dollars in new ten and fifteen cent currency have been issued.

PERSONAL.

E. M. Stanton had a long interview with Secretary Boutwell to-day.

NEW YORK CITY.

[By Telegraph to the Pittsburgh Gazette.]

NEW YORK, July 23, 1869.

The two cholera cases reported yesterday turn out to be simple diarrhœa.

All the prisoners confined at Fort Lafayette, charged with being concerned in the Cuban expedition, have been released. No particulars are given, but it is supposed they were released on their own recognizances.

John Howard, sentenced to five years' imprisonment for being concerned in a robbery at the Den of Reddy the blacksmith, some time since, has been pardoned by Gov. Hoffman.

Caterpillar in the Cotton.

[By Telegraph to the Pittsburgh Gazette.]

SELMA, Ala., July 23.—The *Daily Times* of this morning contains the following, which confirms the report concerning the caterpillar: We learn from Messrs. Hardie and Robinson, cotton factors in this city, who have taken great pains to investigate the subject, that the caterpillar has made its appearance in the black lands cane region in the western part of this county.

Declines the Chairmanship.

[By Telegraph to the Pittsburgh Gazette.]

ERIE, Pa., July 23.—Hon. Wm. A. Galbraith, of this city, has declined the Chairmanship of the Democratic State Central Committee of Penna.

CHURCH COURT.

Trial of Rev. Cheney Deferred—The Civil Court Injunction—Protest Against Jurisdiction.

[By Telegraph to the Pittsburgh Gazette.]

CHICAGO, July 23.—The Ecclesiastical Court for the trial of Rev. Charles Edward Cheney reassembled at the Cathedral of Saints Peter and Paul this afternoon at two o'clock, pursuant to adjournment. Bishop Whitehouse arose and said: May it please your very reverend Court, having received from you a communication requesting a postponement for a definite time, therein named, of the further proceedings on this trial, I have prepared an answer thereto, which I beg to present to your body, and request that both may be publicly read.

The President then read the communications, as follows:

Cathedral of Sts. Peter and Paul, Chicago, July 23, 1869.—To the Right Reverend Bishop of Illinois: The undersigned members of and composing an Ecclesiastical Court for the trial of the Rev. Chas. Edward Cheney, Rector of Christs Church, Chicago, in the matter of the presentment of Rev. Geo. F. Cushman, D.D., Rev. Richard Sweet, D.D., and Hon. L. B. Otis against him, having been served with a writ of injunction, emanating from the Superior Court of the city of Chicago, forbidding all further proceedings in the matter of said presentment until the further order of such Court in the premises, which writ was served during the actual progress of said trial on the 22d inst., thus interfering by civil mandate with the rights and prerogatives of this spiritual tribunal, therefore, we, solemnly protesting against the assumed jurisdiction of such civil Court in the matter, but at the same time wishing respectfully to submit to the constituted authorities of the State, beg leave to request that the trial of the said Rev. Charles E. Cheney be postponed until Thursday, the 29th day of July, at two o'clock, P. M., under the authority of the canon law of the Diocese, vested in yourself.

Respectfully submitted,
SAMUEL B. CHASE,
President of the Court,
HENRY M. PIERCE,
THOMAS N. BENEDICT,
JOHN BENSON,
A. W. SNYDER.

The reply is as follows: *Diocese of Illinois.* Whereas, The counsel for the respondent in the Ecclesiastical trial of Rev. Charles E. Cheney, Rector of Christ Church, Chicago, have applied to the Superior Court in Chancery for an injunction to stay any further proceedings on such trial, and on such bill of complaint on injunction has been granted by His Honor, John A. Jameson, one of the honorable Judges of such Court of Chancery, and summons having been served by the officer on the members of the Ecclesiastical Court while proceeding with the trial, sitting as assessors duly qualified, therefore, in pursuance of law and order, but denying that the said honorable Court of Law and Equity has any jurisdiction in the matter, and protesting against the claim of the civil tribunal to interfere, either by equity proceedings or in any other manner of supervision and control in the administering of the ecclesiastical discipline of the church in the trial of its ministers, yet the Bishop of the Diocese of Illinois, acting in accordance with the express request of the assessors, and under the provisions of section second of the canon of the Diocese of Illinois, I do hereby postpone the Court for the trial of Rev. Chas. E. Cheney till Thursday the 29th day of July, 1869, at the usual place of convening, to wit, the Chapel of the Cathedral, at two o'clock in the afternoon. "*Salve Ecclesia.*"

Given under my official seal and signature, this the 22d day of July, A. D., 1869, in the eighteenth year of my consecration. HENRY J. WHITEHOUSE,
Bishop of Illinois.

In accordance with the document just now read, the Court is hereby postponed to the time indicated therein, the 29th day of July, at 2 o'clock in the afternoon.

The counsel for the prosecution have been promised a hearing before the Superior Court of Chicago, with a view to the removal of the injunction, on Monday or Tuesday next. The order of proceedings on that occasion will be, first, a motion from the counsel for the prosecution for a removal of the injunction; second, argument by the counsel of Rev. Mr. Cheney, sustaining the injunction; closing with an argument by the counsel for the prosecution.

Messrs. Fuller and Thompson, counsel for Rev. Mr. Cheney, occupied seats with the audience, but the reverend gentleman himself was not in attendance. After the adjournment the Bishop of the Diocese, the assessors and the counsel for the prosecution, occupied some time in secret consultation.

This morning, in answer to a telegram from Judge Otis, Hon. S. Corning, Judge of Lewiston, Ill., arrived in town and will conduct the case for the prosecution, as Judge Otis is about to leave for the east.

Cable Celebration Proposed.

[By Telegraph to the Pittsburgh Gazette.]

BOSTON, July 23.—At a meeting of Council last night, on the recommendation of the Mayor, an order was adopted providing for the proper celebration on the part of the city of the successful laying of the French Cable. A Committee was appointed to arrange the details.

Two British steamers with the French cable were signalled from Highland Light, Cape Cod, at sun rise this morning. They are bound into the bay for Duxbury, where the shore end of the cable will be launched. They will reach their destination to-day.

PLYMOUTH, July 23.—The French cable expedition arrived off Duxbury at noon to-day. The shore end will be laid to-morrow.

PLYMOUTH, July 23.—The steamers Chiltern and Scanderia, with the French cable, came to anchor this afternoon off Duxbury. Their arrival so soon was quite unexpected, but it is thought that arrangements will be perfected for landing the shore end to-morrow. The land line to Boston is not yet completed, but an office will be opened to-night at Kingston, about six miles from Duxbury. The advent of the expedition causes much excitement in Duxbury and the surrounding towns, and a public celebration of the event will take place to-morrow or Monday.

The Compromise on the Irish Church Bill Agreed to by the Commons—The Colliery Disaster—Advices from South America—Spanish Officers Exiled for Fomenting Insurrection.

[By Telegraph to the Pittsburgh Gazette.]

GREAT BRITAIN.

LONDON, July 22.—The compromise on the Irish Church bill was the result of fear on the part of the Peers of the consequences threatened by a collision of the two Houses of Parliament. Last night the Tory Lords held a large meeting at a private residence, and resolved to repudiate the Marquis of Salisbury, and put themselves under the lead of Lord Cairns. The latter was authorized to make peace with the Ministry and express the willingness of the Peers to yield.

To-day Lord Cairns sought an interview with Earl Granville, and gave in the submission of the Peers, whereupon the Cabinet agreed to the compromise announced to-night. The prompt and loud expressions of popular indignation terrified the Lords, and thus has been postponed for a while the threatened agitation.

LONDON, July 23.—There was a full attendance of members and spectators in the House of Commons this evening. When Mr. Gladstone rose to speak he was greeted with great cheering. Under a heavy sense of responsibility, but with profound satisfaction, he moved that the House agree to the amendments inserted yesterday, without exception or reservation. He called attention to the excision from the preamble of the words specifying the appropriation of surplus, but as the point was better indicated in the bill he thought it would be invidious and unnecessary to require a theoretical and abstract declaration in the preamble. The reinsertion or date of 1871 was not a token of victory, but an indication of the joint and harmonious working of the Houses. He reviewed the other amendments which had met with objection, and said the substance of the Government proposals had remained virtually unaltered. He asked the House to discard every word that might have been uttered tending to embitter the question, and he apologized for any warmth of feeling that he might have shown. He congratulated the House on the satisfactory settlement which had been arrived at and praised the ability and moderation with which the debates had been conducted by Earl Granville and Lord Cairns.

Sir Roundell Palmer, member for Richmond, approved the course which had been taken. It was honorable and fair to both sides. The point agreed upon was one which all must accept. In case of an adverse decision we must bow to the superior force of those who control events, and when that time has come it is folly not to see and acknowledge the fact. He thought the compromise was substantially a concession to the Church, and concluded his speech with a compliment to Mr. Gladstone on the tone and temper of the debate.

Right Hon. Mr. D'Israeli said that when the difference between the Houses was only a matter of detail, he felt that a delay in the settlement was only of doubtful advantage, and might result in disasters and difficulties of an inconsiderable kind. The compromise was not an unconditional surrender. The most essential points in the amendments had been assented to, and he thought that the House and the country would deem the compromise fair and just. He hoped that the present would be the last occasion when political circumstances would be dealt with by abstract principles. We had been on the eve of a collision, occasioned by a misunderstanding between the two Houses, at a time when each had deported itself in a manner to show the possession of the confidence and satisfaction of the country. Surely all would hail with satisfaction and ratify with pleasure the settlement arrived at as satisfactory and statesmanlike.

After the conclusion of Mr. D'Israeli's speech, the arrangements were agreed to without division. The result was received with great cheering.

LONDON, July 23.—A telegram from Bombay, dated July 20, has the following:

It is reported that the Kingheses have risen against the Russian authority. All Turkestan is disturbed.

LONDON, July 23.—One of the provisions of the telegraph bill, now before Parliament, binds the Postoffice Department to collect and distribute messages by sub-marine cables.

LIVERPOOL, July 23.—The loss of life by the explosion at St. Helen's Colliery yesterday, was greater than first reported. Fifty-eight dead bodies have been taken from the pit.

SOUTH AMERICA.

LISBON, July 23.—The regular mail steamship from Rio Janeiro arrived here yesterday, bringing dates from the city of Buenos Ayres to the 20th ult. and Montevideo to the 21st. The news was quite important. The rebellion in different parts of Uraguay continued, though Montevideo and the country immediately adjacent were tranquil. A dispatch from Buenos Ayres announced that Lopez was surrounded in the Cordilleras, as the Paraguayan rear guard checked two thousand Brazilians who were in pursuit and then crossed the Upper Parana without molestation.

FRANCE.

PARIS, July 23.—De Chasselaup Lanbot, on his installation as President of the Council, declared for liberty of speech, because independence was associated perfectly with devotion to the Emperor.

PARIS, July 23.—The *Moniteur* of to-day says the party of the Left already reveals germs of division, antagonism and rivalry between its members, favoring parliamentary government and the Democrats.

SPAIN.

MADRID, July 23.—The Generals and other officers of the army recently arrested for fomenting insurrection, have been exiled to the Canary Islands. Another conspiracy was discovered and frustrated. The object was the assassination of Soulla, the newly appointed Minister of Justice.

General Sickles, the American Minister, has arrived.

TURKEY.

CONSTANTINOPLE, July 23.—The Sultan has refused to receive the Viceroy of Egypt. Karehad Pacha and Hascan Pacha have been appointed members of the Grand Council, and Mustapha a member of the Council of Minister.

BELGIUM.

BRUSSELS, July 23.—Henry Sanford, the retiring American Minister, yesterday had an audience of leave, and Mr. Jones, the new Minister, presented his credentials.

MARINE NEWS.

LIVERPOOL, July 23.—The steamships Java, Queen, and Silesia, from New York, have arrived.

THE CUBAN REVOLUTION.

[By Telegraph to the Pittsburgh Gazette.]

HAVANA, July 23.—A report is in circulation that the government contemplates embargoing the properties of Jose Baro, a wealthy Cuban, who is at present absent from the Island. Seven plantations, situated in the midst of the insurrectionary districts are unhurt. The owners of them are suspected of giving money to the rebels to save them from destruction.

Advices from Santiago de Cuba to the 16th inst. have been received. The arrival of the monitor Centuar created quite a sensation.

The explanations received by Admiral Hoff from the Spanish authorities relative to the execution of Americans are reported as being satisfactory and the Spanish government justified in its action.

A banquet was tendered the officers of the United States squadron on duty at Santiago, but it was declined.

Several skirmishes had recently taken place between the troops and insurgents. The insurgents had attacked a number of garrisoned plantations.

The steamer Mayari, which arrived at Havana to-day, brought one hundred and fifty-six sick troops.

General Jordan is in the country between Santiago de Cuba and Bayamo. Jordan's forces have been joined to those of Rustaw.

Advices from Kingston to the 6th inst. have been received. Four hundred railroad employes had quelled a negro rising at Old Harbor.

Captain General De Rodas has issued a stringent decree with the object of avoiding frauds and simplifying collection of customs due.

The cargo of the schooner Grapeshot has been confiscated at Jamaica by the British authorities, because of her violation of neutrality laws.

Owners of plantations within the jurisdiction of Cienfuegos are arming companies to defend themselves.

Rebel guerrillas have cut the railroad near Santa Espiritu.

Sugar—there was a large business today, but the market was unchanged; sales of all kinds seven thousand boxes.

ST. LOUIS.

Execution—Awful Scene at the Scaffold.

[By Telegraph to the Pittsburgh Gazette.]

ST. LOUIS, July 23.—Wm. Edwards, the colored man convicted of killing Lewis Wilson, another colored man, at a negro ball last winter, was executed in the jail yard this afternoon. When the trap was sprung, and the man dropped, it was discovered that the rope was a little too long, allowing the culprit's toes to touch the ground. An awful scene then occurred. For a moment the body remained perfectly still, after which violent contortions commenced, during which the man's legs and arms were swung and drawn in every direction. The rope was immediately shortened by drawing it up, but the writhing of the poor wretch continued for some minutes and it was not until he had struggled fearfully for thirteen minutes that he was pronounced dead. On cutting the body down, after hanging twenty-five minutes, it was found that the neck was not broken. The execution was witnessed by quite a number of persons, who had received special invitations, and by a great crowd that had climbed on the adjoining house tops.

Annual College Regatta.

[By Telegraph to the Pittsburgh Gazette.]

WORCESTER, Mass., July 23.—The annual regatta on Lake Quinsigamond took place to day. The attendance was quite numerous, although there were not so many strangers or collegians present as last year. The weather was splendid and excellent order observed. The Worcester four-oared lap stroke race was won by the P. F. Curran in 23:50. The Freshman six-oared boat race, between the Yale and Harvard crews, was won by the Harvard boat by eight lengths in nineteen minutes and thirty seconds. The time of the Yale boat was nineteen minutes fifty-eight and a half seconds. The Worcester scull race was won by the S. Salisbury in nineteen minutes and thirty seconds. The four oared Worcester University champion shell boat race was won by the Harvards in eighteen minutes and two seconds. The Yale's time was eighteen minutes and eleven seconds. The races were all over a three mile course. The enthusiasm over the unexpected result was immense.

—John Howard was sentenced to the Penitentiary for life, in the Common Pleas Court of Cincinnati, yesterday, for the murder of Alf Parris in April last.

—The first fruit car on the Central Pacific Road left Sacramento yesterday, loaded principally with plums and pears for Chicago and boxes of new grapes for New York.

—Jack Staples and Andrew Johnson, colored, aged sixteen and seventeen, who, a few days since, murdered a negro man on the levee at Memphis, have been sentenced to sixteen years in the penitentiary.

—The reported washing away of the Toledo, Wabash and Western Railroad bridge across the Illinois river at Merceldo, is incorrect. The track on the west side of the river is injured, but it will be repaired to-day.

—The work on the Government bridge across the Mississippi, at Rock Island, has been suspended by an order from Washington. Gen. G. K. Warren is expected there in a few days, when it is hoped the work will be renewed.

—Wade Balton, who was shot some days since by Dr. Dickens, died at Memphis, on Thursday. He made a will, bequeathing $100,000 to charitable purposes, including $10,000 to Mrs. Stonewall Jackson and ten acres of land to each of his former slaves.

—While a man was in the jewelry store of H. Phukel, at St. Louis yesterday, purchasing a cheap clock in the rear of the store, a woman entered, went behind the counter, abstracted between seven and eight thousand dollars' worth of diamonds and escaped.

—A St. Joseph, Missouri, dispatch says: Hon. Wm. E. Dodge, of New York, Hon. Felix R. Brunot, of Pittsburgh, Hon. Nathan Bishop, of New York, and Chas. Pendlay, of Baltimore, United States Commissioners, appointed by General Grant to examine the Southern Pacific Railroad, are stopping in this city.

—Circulars have been issued from the Illinois State Executive Department with a view of obtaining an estimate of the corporate debt of the State. From the information already received it is thought that the total corporate debt is almost one hundred million dollars, or an average of one million dollars to each county.

—The Pullman palace sleeping car Wahsatch, which left San Francisco, California, on Monday morning loaded with passengers, arrived at Chicago, Thursday, via the Chicago and Northwestern Railroad, and left for New York via the Michigan Central, Great Western and New York Central Roads. This is the first car from the Pacific carrying passengers through without change.

—Mrs. Roberts, a milliner, aged about forty, residing in Leavenworth, Kansas, made two unsuccessful attempts to cowhide Dr. Hamberlan, an insurance agent there and then threw oil of vitriol in the face of B. C. Clark, a crockery dealer. The cause is supposed to be unrequited affection on the part of the first and interference and alleged marriage engagement on the part of the second.

—Last evening at Louisville, Ky., a skiff containing a party of four inexperienced young oarsmen was struck by the bow of the Jeffersonville ferry boat IsaacBowman, about mid-stream and upset. Fortunately another skiff with two young men aboard rowed to the scene of disaster and rescued three of the party, but the fourth, a Mr. Victor Lombard, was drowned, all efforts to save him having proved ineffectual.

—It is said that a number of recruits for the Cuban army are about to bring suits against the Junta, at New York, to recover the thirty dollars per month in gold offered by them at the time of enlistment. The Junta appear to refuse to pay any except those who enlisted at their own headquarters. The recruits will also sue for the five hundred dollars bounty in gold offered them, and for their clothes, etc., lost in the attempted expeditions.

—Some weeks ago Chancellor Smith enjoined the city authorities of Nashville from exercising the functions of their offices and appointed a receiver to take charge of the city government. The city authorities applied to Chancellor East to dissolve the injunction. East delivered his decree yesterday and sustained the decree of Chancellor Smith. Until the election in September next Nashville will, therefore, be in the hands of Receiver Bass.

[By Telegraph to the Pittsburgh Gazette.]

HAMILTON, C. W., July 23.—The Pullman Palace Sleeping Car, "Wadsatch," passed here on the Pacific express over the Great Western line, this morning, with thirty passengers, who chartered the car in California, and will make the trip through to New York in six days and a half. Among the party are two gentlemen connected with the French Government who are going to New York to catch Saturday's steamer for Havre. From the Pacific coast to Paris, the journey will be made in seventeen or eighteen days. The party was not delayed at any point during the whole journey, the connections being close and certain, and they express themselves greatly pleased with the appointments of the route.

The President at Long Branch.

[By Telegraph to the Pittsburgh Gazette.]

LONG BRANCH, N. Y., July 23.—President Grant and family last evening attended the hop at the Stetson House. To-day has been passed in riding, attending a clam bake, &c. The arrangements for the complimentary ball, in honor of the President on Monday next, are nearly completed.

Allegheny.

It will be seen by the proclamation of Mayor Drum that an election is to be held in the First ward of that city on the 3d proximo, to fill a vacancy in each branch of her Councils—Samuel Hartman, Esq., of the Select branch, having removed from the city, and, therefore, ineligible. There is no alternative, his valuable services must be lost to the city. It will be difficult to find for him a successor so experienced and judicious, Mr. Long, of the Common Councils, we understand, will continue to reside in the ward, but resigned his place probably owing to the engrossing nature of his commercial engagement. It will be difficult for the constituency to replace Mr. Long. He is a gentleman of more than ordinary intelligence, familiar with affairs of city, county and State, possesses a strong, inductive, analytical mind. He writes and reasons well, as from time to time our columns have borne witness. It is much to be regretted that such a man should, from any cause, deny his services to his neighbors, even if they can only be rendered at some personal inconvenience. We repeat, we deplore the loss of a member of Councils of such marked abilities as is Henry M. Long.

Further Litigation.

The Blockman family were drawn into litigation a few days ago. Mr. Blockman, as our readers will remember, in the prosecution of his avocation as an itinerant clockmender, had made use of the glass in the windows of his mansion, which aroused the ire of his landlord and resulted in a law-suit. That difficulty was settled, but the memory of it disturbed the peaceful nature of Mrs. Blockman, who has been "nursing her wrath to keep it warm" ever since, until she had an opportuntty of venting her feelings There is a little garden near the house, which has always, it seems, been disputed property. Yesterday the landlord, Mr. David Farnhoults, who claims it, attempted to take possession, when he was confronted by Mrs. Blockman, who made a violent assault upon and drove him away from the premises. He immediately called at the office of Alderman Lynch, made his statement and caused a warrant to be issued for the arrest of the lady.

A Long, but Successful Search.

A Wood street house addressed a business letter to a customer in Allegheny, designating the place thus:

"Federal street,
Alli."

The letter was duly stamped and dropped in the Pittsburgh Postoffice, and thence proceeded on its journey to "Alli," arriving, after several weeks of wandering at the proper destination in Allegheny city, bearing on its envelope, in addition to the original superscription, the following memoranda: "Try Mobile;" "Not in Mobile;" "Try Baltimore, Md." "Not in Montgomery;" "Not in Selma;" "Try Boston, Mass." "See Other Side;" "Send this letter to Allegheny city, Pa." The writer of this letter will probably in future find a way without the help of "Alli" of reaching his correspondent across the river in less time than was used in this instance.

Bankrupt—our pockets ins'de out!
Empty of words to speak his praises!
Worcester and Webster up the spout!
Dead broke of laudatory praises!
But why with flowery speeches tease,
With vain superlatives distress him?
Has language better words than these—
THE FRIEND OF ALL HIS RACE, GOD BLESS HIM!

A simple prayer—but words more sweet
By human lips were never uttered,
Since Adam left the country seat
Where angel wings around him fluttered.
The old look on with tear-dimmed eyes,
The children cluster to caress him,
And every voice unbidden cries,
THE FRIEND OF ALL HIS RACE, GOD BLESS HIM!

HABITS OF THE SIAMESE TWINS.

BY MARK TWIN.

I do not wish to write of the personal *habits* of these strange creatures merley, but also of certain curious details of various kinds concerning them, which, belonging only to their private life, have never crept into print. Knowing the Twins intimately, I feel that I am peculiarly well qualified for the task I have taken upon myself.

The Siamese Twins are naturally of a tender and affectionate disposition, and have clung to each other with singular fidelity throughout a long and eventful life. Even as children they were inseparable companions; and it was noticed that they always seemed to prefer each others society to that of any other persons. They nearly always played together; and, so accustomed was their mother to their peculiarity, that, whenever both of them chanced to be lost, she usually only hunted one of them—satisfyed that when she found one, she would find his brother somewhere in the immediate neighbourhood. And yet these creatures were ignorant and unlettered—barbarians themselves and the offspring of barbarians, who knew not the light of philosophy and science. What a withering rebuke is this to our boasted civilization, with its quarrellings, its wranglings, and its separations of brothers.

As men, the twins have not always lived in perfect accord but, still, there has always been a bond between them which made them unwilling to go away from each other and dwell apart. They have even occupied the same house, as a general thing, and it is believed that they have never failed to even sleep together on any night since they were born. How surely do the habits of a lifetime become a second nature to us! The twins always go to bed at the same time; but Chang usually gets up about an hour before his brother. By an understanding between themselves, Chang does all the in-door work and Eng runs all the errands. This is because Eng likes to go out; Chang's habits are sedentary. However, Chang always goes along. Eng is a Baptist, but Chang is a Roman Catholic; still, to please his brother, Chang consented to be baptised at the same time that Eng was, on condition that it should not "count." During the war they were strong partisans, and both fought gallantly all through the great struggle—Eng on the Union side and Chang on the Confederate. They took each other prisoner at Seven Oaks, but the proofs of capture were so evenly balanced in favor of each that a general army court had to be assembled to determine which one was properly the captor and which the captive. The jury was unable to agree for a long time; but the vexed question was finally decided by agreeing to consider them both prisoners, and then exchanging them. At one time Chang was convicted of disobedience of orders, and sentenced to ten days in the guard house; but Eng, in spite of all arguments, nothwithstanding he himself was entirely innocent, felt obliged to share his imprisonment; and so, to save the blameless brother from suffering, they had to discharge both from custody—the just reward of faithfulness.

Upon one occasion the brothers fell out about something, and Chang knocked Eng down, and then tripped and fell on him, whereupon both clinched and began to beat and gouge each other without mercy. The bystanders interfered and tried to separate them, but they could not do it, so allowed them to fight it out. In the end both were disabled, and were carried to the hospital on one and the same litter.

Their ancient habit of going always together had its drawbacks when they reached man's estate and entered upon the luxury of courting. Both fell in love with the same girl. Each tried to steal clandestine interviews with her, but at the critical moment the other would always turn up. By-and-by Eng saw with distraction that Chang had won the girl's affections; and from that day forth he had to bear with the agony of being a witness to all their dainty billing and cooing. But with a magnanimity that did him infinite credit, he succumed to his fate, and gave countenance and encouragement to a state of things that bade fair to sunder his generous heart-strings. He sat from seven every evening until two in the morning listening to the fond foolishness of the two lovers, and to the concussion of hundreds of squandered kisses—for the privilege of sharing only one of which he would have given his right hand. But he sat patiently, and waited, and gaped, and yawned, and stretched, and longed for two o'clock to come. And he took long walks with the lovers on moonlight evenings—sometimes traversing ten miles, notwithstanding he was usually suffering from rheumatism. He is an inveterate smoker; but he could not smoke on these occasions, because the young lady was painfully sensitive to the smell of tobacco. Eng cordially wanted them married, and done with it; but although Chang often asked the momentous question, the young lady could not gather sufficiant courage to answer it while Eng was by. However, on one occasion, after having walked some sixteen miles, and sat up till nearly daylight, Eng dropped asleep from sheer exhaustion, and then the question was asked and answered. The lovers were married. All acquainted with the circumstances applauded the noble brother-in-law. His unwavering faithfulness was the theme of every tongue. He had stayed by them all through their long and arduous courtship; and when, at last, they were married, he lifted his hands above their heads, and said, with impressive unction, "Bless ye, my children, I will never desert ye!" and he has kept his word. Magnanimity like this is all too rare in this cold world.

By-and-by Eng fell in love with his sister-in-law's sister, and married her, and since that day they have all lived together, night and day, in an exceeding sociability which is touching and beautiful to behold, and is a something to rebuke our civilization.

The sympathy existing between those two brothers is so close and so refined that the feelings, the impulses, the emotions of the one are instantly experienced by the other. When one is sick the other is sick; when one feels pain the other feels it; when one is angered the other's temper takes fire. We have already seen with what happy facility they both fell in love with the same girl. Now Chang is bitterly opposed to all forms of intemperance, on principle; but Eng is the reverse; for while these men's feelings and emotions are so closely wedded, their reasoning faculties are unfetered; their *thoughts* are free. Chang belongs to the Good Templars, and is a hard-working and enthusiastic supporter of all temperance reforms. But, to his bitter distress every now and then, Eng gets drunk, and, of course, that makes Chang drunk, too. This unfortunate thing has been a great sorrow to Chang, for it almost destroys his usefulness in his favorite field of effort. As sure as he is to lead a great temperance Convention, Eng ranges up along side of him, prompt to the minute and drunk as a lord; but yet no more dismally and hopelessly drunk than his brother, who has not tasted a drop. And so the two begin to hoot and yell, and throw mud and bricks at the Good Templars; and, of course, they break up the procession. It would be manifestly wrong to punish Chang for what Eng does, and, therefore, the Good Templars accept the untoward situation, and suffer in silence and sorrow. They have officially and deliberately examined into the matter, and find Chang blameless. They have taken the two brothers and filled Chang full of warm water and sugar and Eng full of whiskey, and in twenty-five minutes it was not possible to tell which was the drunkest. Both were as drunk as loons, and on hot whiskey punches, by the smell of their breath. Yet all the while Chang's moral principles were unsullied, his conscience clear; and so all just men confessed that he was not morally, but only physically drunk. By every right and by every moral evidence the man was strictly sober; and, therefore, it caused his friends all the more anguish to see him shake hands with the pump and try to wind his watch with his night-key.

There is a moral in these solemn warnings—or, at least, a warning in these solemn morals; one or the other. No matter, it is somehow. Let us heed it; let us profit by it.

I could say more of an instructive nature about these interesting beings, but let what I have written suffice.

The Thing "Ladies" Get Tight On.

The extent to which the habit of the secret use of chloroform prevails to-day among all classes of women, from the inmates of the shameful haunts of Greene street to the belles of Fifth avenue and the pupils of fashionable boarding-schools, is known to few except the apothecaries who supply the deadly drug, for deadly it is; and, though its poison is sometimes as swift as the cobra's, it is at others slow in its vengeance, reaching through years of misery, but always sure and inevitable. We hear with terrible frequency of sudden deaths from chloroform, "taken only to allay a headache;" but we do not hear of the wreck of the brain and the ruin of the nervous system which its habitual use surely brings about. The swiftness with which it produces its dreamy intoxication, and the few apparent traces which it leaves behind, make it a favorite with women who know nothing of its ungovernable force, of its cumulative effects, and of its terribly dangerous nature. Its use is far more to be deprecated than that of alcohol or opium, the effects of which can easily be foretold. Chloroform, on the contrary, is as subtle and sudden in its wayward vengeance as the most treacherous and dangerous of the women who use it. The dose that was seemingly innocuous yesterday, may, if repeated, bring swift and resistless death to-day, and, though the penalty should be delayed, it is certain to be inflicted sooner or later. When, a year or two ago, a writer charged American women with drunkenness, the charge was easily repelled; for the delicate organization of the refined lady instinctively and notoriously shuns the rude grasp of alcohol. The charge that chloroform is largely used by women, is however, lamentably true. It is generally used in ignorance of its nature and ultimate effects, but the sad and disgraceful fact that it is habitually employed to an alarming extent, as an aid to female drunkenness, cannot be gainsaid.—*N. The Bird-Fish.

[Translated from the Etats Unis, for the Evening Post.]

We receive from a foreign correspondent the following description of a piscatory expedition from the island of Sikohe in the Japan Archipelago, and of the capture of the most wonderful fish which inhabits the waters of the globe:

Japanese naturalists have known of the existence of a very rare fish which frequents certain localities around these islands, during the months between December and June, and which they call the yellow fish. In the hope of capturing some of the species, several savans embarked at Sikohe, provided with peculiar fishing apparatus, and sailed off at random in the search. It was not until the evening of the fourth day that they were fortunate enough to bring aboard one of these phenomenal fishes. It was about the size of a mackerel, and almost precisely the color of fresh butter.

It was immediately deposited in a reservoir, and transported to land with the greatest care. Then followed the metamorphosis which characterizes it as an altogether extraordinary and marvelous creation. In the midsummer a change begins to take place in its form, which progresses slowly until what was a fish becomes a bird with yellow plumage. It flies like other birds, and has a distinctive song.

At the return of winter, another change takes place; it loses its wings and feathers, and is again clothed with scales and fins.

This bird-fish, hitherto regarded as fabulous, will be an object of observation and study to naturalists, and in time we shall have a history of the wonderful transformation now considered as one of the popular fictions so common to those countries.

MESSRS. L. ENGELKE and M. Richard Muckle have written to President Grant to say that they propose to celebrate the 4th of July, in 1876, in Philadelphia, on a grand scale. They propose to erect a building to seat 100,000 persons and to have 12,000 performers. If these 12,000 read the "Declaration" in unison, every despot in the world will "git up and git," and not stand on the order of his going.

SCIENTIFIC ITEMS.

WHAT BIRMINGHAM MAKES IN A WEEK.

The *Engineer*, of London, publishes the following curious statistics of the various manufactories of Birmingham: 14,000,000 of steel pens; 6,000 iron bedsteads, 7,000 guns, 300,000,000 of machine screws, 100,000,000 of buttons, 1,000 saddles, 5,000,000 of copper and bronze coins, 20,000 balls, 40,000 pounds weight of paper mache work, £30,000 worth of jewelry, 20,000,000 of feet in length of wire, 40,000 pounds weight of needles, 20,000 pounds of hairpins, 18,750,000 of hooks and eyes, 10,000 dozen fire irons, 3,500 pairs of bellows, 150 sewing machines.

THE WORLD'S MINERALS.

The *Scientific American* says that there are produced annually throughout the world 3,214,000,000 cwt. of coal, 181,800,000 of iron, 1,582,000 of copper, 4,926,300 of lead, 2,350,000 of zinc, besides 459,883 pounds of gold, and 2,863,000 pounds of siver. Great Britain produces more than half the coal, nearly half the iron, and more than one-third of the lead. Austria produces one-third of the copper, and America nearly a third. Half the zinc is from Prussia, and most of the rest from Belgium. North and South America produce six-sevenths of the silver, and Australia and and America each produce nearly half of the gold.

TEST OF GOOD VENTILATION.

General Morin, having introduced a new system of ventilation in a large French manufacturing establishment, reports to the Academy, as evidence of the success of his system, that the four hundred operatives, during the months of October, November and December, consumed 15,000 kilogrammes (33,000 pounds) of bread, while in the same months of 1868, the other conditions remaining the same, but his new mode of ventilation having been introduced, the working-people needed 20,000 kilogrmmes, or an increase of 11,000 pounds of bread, to appease their hunger. It is barely possible that some of the operatives are not far-sighted enough to appreciate the advantages of the change, as no mention is made of a corresponding increase in wages.

Capture of a Devil Fish.

A few days ago, a party of millitary officers, fishing on the pier at Ship Island, La., discovered a monstrous devil fish close to the shore, apparently asleep. Our old friend Col. Zenas R. Bliss, the Commander of the post, was summoned, and of course he was whaleman enough for the exigency. He called for a boat, and providing harpoons and lines, he set out with a party to capture the fish. The Colonel got his iron well in at the first throw, and off the monster started for deep water, with the boat in tow. A second and a third iron were planted in the creature, but still it pushed on. Another boat went to the assistance of the first, but, notwithstanding the weight of the boats, with six persons, in each, they had been dragged a distance of three miles from the Island when they fell in with the U. S. revenue cutter Wilderness, which assisted in the capture, and after considerable labor the fish was safely hauled up at the ship's fish-tackle, and the vessel steaming to the island, his satanic piscatorial majesty was soon on the beach. On examination the creature was found to somewhat resemble a stingaree, only instead of the head coming to a point, the space between the eyes (three feet) forming the mouth was concave, the mouth itself measuring two feet in width; no teeth were visible. The tail was the same as a stingaree without the sting; the color was a dark brown, nearly black on top and white underneath, measured 12 feet from head to tail, 14 feet in breadth and 2 feet thick in the middle; its weight was estimated at from twelve to fifteen hundred pounds.

A Queer Case of Bigamy.

Rachael Meglien, a rather prepossessing woman, of about twenty-five years of age, made her appearance before Justice Shandley Wednesday and made complaint that her husband, Simon Meglein, to whom she was married seven years ago, in Baden-Baden, has deserted her, and had married another woman. Simon was at once arrested and brought before the Court. He plead, in justification, that he was not married to the second woman, that it was true he was living with her—that his lawful wedded wife was not a perfect woman, and was more man than woman; and that the Justice might be satisfied on this point, he desired that a medical examination might be made. The wife did not seem willing that an examination should be made. The husband insisted, and it was done, and his statement found correct. As it could not be proven that Meglien had been married a second time, and charge of bigamy could not be sustained, and he was discharged.—*N. Y. Paper.*

A Drove of Canary Birds.

A New York paper, speaking of the importation of canary birds from Germany, says the following sight was seen in Florence, Italy, in 1861, by a lady and gentleman belonging to New York:

In walking in the principal street they overtook a man with a long whip in his hand, which he was moving from one side to the other in what they thought was a strange manner. When they came up with him they found he was driving a flock of canary birds, as in England they drive a flock of turkeys. A carriage came along, the man waved his whip in a peculiar manner, when the little birds all went to the sidewalk until the carriage had passed, when they took to the street again. A woman wanted to buy one, when the man sprinkled some canary seed at his feet and half a dozen of them came to him, when he took one of them up in his hands and delivered it to the woman, who paid him one franc for it. The man then went on again.

The Nervous Man.

The nervous man is the original harp of one thousand strings.

He is a fiddle, past finding out.

The tread of the elephant don't skare him, but he wilteth when the mouse nibbles in the wainscot.

He turneth pale at the coming ov the spider.

He laffeth when the whirlpool is on a bender; but shudereth when the striped snaik walks out for an airing.

He gazeth at the red lightning with joy, when it gasheth up the heavens, but the scales of his back lift up with horror when old Baxter files up his wood saw.

My advice to the nervous man is to drink milk for a living, and for excitement chew spruce gum.—*Josh Billings.*

CONTINUES TO TREAT ALL
private diseases, Syphilis in all its forms, all urinary diseases, and the effects of mercury are completely eradicated: Spermatorrhea or Seminal Weakness and Impotency, resulting from self-abuse or other causes, and which produces some of the following effects, as blotches, bodily weakness, indigestion, consumption, aversion to society, unmanliness, dread of future events, loss of memory, indolence, nocturnal emissions, and finally so prostrating the sexual system as to render marriage unsatisfactory, and therefore imprudent, are permanently cured. Persons afflicted with these or any other delicate, intricate or long standing constitutional complaint should give the Doctor a trial; he never fails.
A particular attention given to all Female complaints, Leucorrhea or Whites, Falling, Inflammation or Ulceration of the Womb, Ovaritis, pruritis, Amenorrhoea, Menorrhagia, Dysmenorrhoea, and Sterility or Barrenness, are treated with the greatest success.
It is self-evident that a physician who confines himself exclusively to the study of a certain class of diseases and treats thousands of cases every year must acquire greater skill in that specialty than one in general practice.
The Doctor publishes a medical pamphlet of fifty pages that gives a full exposition of venereal and private diseases, that can be had free at office or by mail for two stamps, in sealed envelopes. Every sentence contains instruction to the afflicted, and enabling them to determine the precise nature of their complaints.
The establishment, comprising ten ample rooms, is central. When it is not convenient to visit the city, the Doctor's opinion can be obtained by giving a written statement of the case, and medicines can be forwarded by mail or express. In some instances, however, a personal examination is absolutely necessary, while in others daily personal attention is required, and for the accommodation of such patients there are apartments connected with the office that are provided with every requisite that is calculated to promote recovery, including medicated vapor baths. All prescriptions are prepared in the Doctor's own laboratory, under his personal supervision. Medical pamphlets at office free, or by mail for two stamps. No matter who have failed, read what he says. Hours 9 A.M. to 8 P.M. Sundays 12 M. to 3 P.M. Office, No. 9 WYLIE STREET, (near Court House,) Pittsburgh, Pa.

PITTSBURGH MARKETS.

OFFICE OF PITTSBURGH GAZETTE, FRIDAY, July 23, 1869.

Business generally continues quiet, and there are no indications at present of any immediate improvement. It is a noticeable fact that the receipts of flour are remarkably small, and at no time, perhaps, within the past twelve months has the supply in this market been so much reduced as at present. This is owing to the fact that it is relatively lower here than in the west, most of the dealers are nearly sold out, and they cannot replace it at present prices. Grain, also, of all kinds is scarce and firm, and provisions continue to tend upward. There is a continued good demand for raw sugars, as the time for putting up small fruits has arrived, and compared with last week the market is firmer. Apples, Peaches and Berries have commenced to arrive pretty freely. Voigt, Mahood & Co., received forty-two bushels of Blackberries from Louisville, Kentucky, and disposed of them readily at $4@4,50 per bushel.

The Chicago *Tribune* says: There was was a total amount of all kinds of grain in store here at the commencement of business on Monday morning last, of 1,653,740 bushels, against 1,554,844 bushels the corresponding period last week, 1,554,652 bushels two weeks ago, and 1,958,512 bushels one year ago. The receipts here exceed the shipment of wheat during the week, by 103,018 bushels, and oats, 17,707 bushels; while the shipments here exceeded the receipts of corn by 13,145 bushels, and rye 8,604 bushels. Total increase of the amount in store during the week, 98,986 bushels.

APPLES—Scarce and in good demand with sales of fair at $3@4 per bbl, and choice at $4,50@5.

BUTTER—Good to prime is selling in a regular way at 20@25.

BEANS—Sales at $1,75@2.

BROOMS—Quoted as follows: No. 5 $6,50; No. 4 $6; No. 3 $5, No. 2, plain, $4,50, and market firm.

CHEESE—Sales Western Reserve, at 15; Hamburg, at 16; Factory, at 17; and Goshen, at 18.

CARBON OIL—Is dull but unchanged; sales of 50 or 100 barrel lots, at 27@28, and in small lots, 29@30.

DRIED FRUIT—Peaches have still further declined, and holders are anxious to realize and close out. We now quote at 7@8 for quarters, and 12@13 for prime halves. Apples 10@12c, as to quality.

EGGS—Sales 20@21.

FLOUR—There is no improvement to note in the demand, and while the market is quiet and firm with an exceedingly light supply, prices remain unchanged. Sales in store at $6,50@7,00 for Spring Wheat brands, and $7,00@7,25 for Winter Wheat.

GRAIN—Wheat on spot is in steady milling demand with sales at $1,35@1,40. Oats do not go off as readily as dealers generally anticipated, and with a fair supply, and only a moderate demand, prices remain unchanged—68@69, by the car load, and 70@72 for small lots in store. Corn is firm and very scarce; last sales of mixed at 90 —prime Yellow quoted at 95. Rye nominal at $1,24@1,25.

HAY—Baled is scarce and may be quoted at $25@27, for good to strictly prime.

HEMP—Last sales at $205.

HUSKS—Sales at 2¾@3 cts per pound.

LIME—Cleveland Lime is quoted at $2,50, per bbl, and Common White at $1,75.

LARD OIL—Sales of No. 2 at $1,15@1,18 and No. 1 at 1,40@$1,48

POULTRY—Sales of spring chickens, by the coop, at 60@65c per pair.

POTATOES—In good supply and dull —sales at $1,50@2,00 per bbl.

PROVISIONS—Market firmer and prices tending upward. Shoulders, 15; Ribbed Sides, 17¾@18; Clear Sides, 19; Plain Hams, 19; Sugar Cured Hams, 22½@23; Sugar Cured Shoulders, 17; Dried Beef, 21@22. Lard, 20¼@20½ in tierces and 21 in kegs. Mess Pork, $33½.

PEANUTS—Small sales at 12.

SALT—Allegheny River brands are quoted, by the car load, at $1,75@1,80.

MARKETS BY TELEGRAPH.

NEW YORK, July 23.—Cotton lower; sales of 275 bales at 33¾@34c for uplands. RIVER NEWS.

The river continues to recede steadily with scant 6½ feet in the channel last evening. Weather yesterday, cloudy and cool—at times threatening rain. Mercury at 4 P. M. 80 in the shade.

The Argosy from Cincinnati, is the only arrival we have to report.

The Kenton departed for Portsmouth as usual.

The hull for Capt. Stockdalecs new South America boat, "Barranquilla," arrived yesterday.

A barge loaded with railroad iron, which was to have been towed to St. Louis by the Lorena, sunk at McKee's Rocks on Thursday. It is thought as the water where the accident occurred is shallow, that it can be raised without much difficulty.

The R. C. Gray, Capt. Isaac Whittaker is announced for Cincinnati and Louisville forthwith. As will be seen by an advertisement, she will receipt freight through to New Orleans.

The Kate Putnam, Capt. G. W. Reed, is announced to depart for St. Louis today, and passengers should bear this in mind.

It is reported that Capt. W. B. Donaldson, late of the Great Republic, contemplates building a large stern-wheler.

Capt. W. A. Stewart, formerly Local Inspector for Cincinnati, we regret to announce, is seriously ill at his residence in Springfield, Ohio.

—The Leonidas, Messenger and towboat Star, were all at Cairo on Wednesday.

—The towboats Ajax and Dick Fulton, arrived at Cairo on Wednesday from New Orleans.

—The great bridge over the Ohio at the falls will be completed and the cars running over it by the first of September.

—Captain C. A Dravo and clerk Geo. L. Reppert, of the Wauanita, left Cincinnati for Pittsburgh by rail, Wednesday evening.

—The railroad from Duvall's Bluff to Little Rock has been leased by the Arkansas River Packet Company for one year, for $25,000.

—The Maggie Hays is announced to make a trip from Cincinnati to St. Louis. In the event of low water, she is to take the place of the Ohio No. 4 in the Cincinnati and Marietta packet trade

—The local Inspectors of St. Louis, call attention of all licensed engineers to the following rule, enacted at a meeting of United States Inspectors, at Washington, in January last: "When an engineer gives up the charge of the engineer's department of a steamer, by resignation or otherwise, he shall certify in writing as to the condition of the same; said certificate to be kept on board the steamer, subject to the inspection of the United States Inspectors of steamers and the succeeding chief engineer. Also, when an engineer assumes the charge of the engineer's department of a vessel, he shall examine the same, to see if it is in good order, and in accordance with the specified condition in the certificate given by his immediate predecessor, and if not, report the facts to the United States Inspectors of steamers in the port where he belongs."

WE PRINT *on the inside pages of this morning's* GAZETTE—*Second page: Poetry, Habits of the Siamese Twins, Miscellaneous. Third and Sixth pages: Financial, Mercantile and River News, Markets, Imports. Seventh page: Poetry and Clippings.*

LARGE discoveries of block-coal of excellent quality are reported from Southern Indiana.

THE new Atlantic Cable has been extended to the Massachusetts coast, the expedition being reported in sight of land yesterday. The shore connections are to be made to-day.

THEY say that the *National Intelligencer* is to be revived as a Chase journal, backed by Sprague's cash, and managed by Donn Piatt. The new journal would represent a small but interesting tea-party.

THE existing laws against the importation of Chinese coolies will be enforced, with such further legislation as the case may be found to require. Voluntary immigration from any quarter of the world will not be obstructed.

THE President of the Cuban Junta at New York has been kicked out of office for being "far from sanguine of the success of the cause," and for admitting, to friends in Washington, that "the insurrection began one year too soon and could not succeed without outside aid." High time he should be kicked out!

IT IS CREDIBLY REPORTED that Mr. CHARLES R. BUCKALEW is not unwilling to accept a seat in the State Senate, and that it is probable he will be a candidate this year. Having served a term of six years in the Senate at Washington, he wishes to return to the body in which he won his early renown. It would be well if both parties would reinforce the Legislature with men of his sort.

THE selection of a gentleman from Erie for the head of the Democratic State Committee represents the indignant protest of a few honest and sensible Democrats, against the corrupt Philadelphia clique who intended to control the disbursement of the greenbacks which the Anthracite Nabob is expected to bestow. It means that the Packer corruption-fund is to be spent for the party, and not grabbed by a half-dozen speculators for their personal profit. And our Republican friends may regard it therefore, as meaning business for the rest of the canvass. Mr. GALBRAITH, who was so designated, declines the doubtful honor, but in all probability the Chairman will be selected out of the same school of politics, and hence the warning is none the less worthy of attention.

THE PRECISE nature of the so-called compromise upon the Irish Church question, between the two Houses of Parliament, is not clearly indicated by present advices. The feature of a concurrent endowment, engrafted upon the measure by the Lords, seems to be maintained, while concessions are made to the Commons upon points admitted to be of minor consequence. With fuller information upon the details of the bill as finally agreed to on each side, we shall be the better able to judge of the success with which the Ministerial party have met the responsibilities imposed upon them by that strategy, on the part of the hereditary branch of Parliament, to which we called attention some days since. It is not clear that the Lords have not proved their command of the situation.

"THERE is something rotten," if not in Denmark, at least in the American system of detecting criminals. Every day murders are committed. Every day, in New York for instance, dead bodies are found, showing unmistakable evidence of foul play, and there the history ends. Human life is no longer respected, nor is murder looked upon with that horror which in former days made the violent death of a man to be regarded as a crime of such importance that every means were used to aid in detecting and punishing the murderer. The trouble is that the science of crime has taken rapid strides and the science of detection has lagged behind, so that some radical and efficient changes are necessary to put them again on anything like an equal footing. As things now are, there are hundreds, perhaps thousands, of murderers living unmolested in the land, apparently untroubled by remorse, and the old saw, "murder will out," has become a dead letter.

GEARY AND PARDONS.

It is a favorite slander with the opposition press of Pennsylvania to charge Gov. GEARY with an indiscriminate and corrupt use of the prerogative of pardon. Never yet was printed, by the most audaciously malignant of them all, a syllable of proof to sustain the specification of corruption. In that regard, the Governor's friends may defy any slanderous tongue. How is it, as to the other branch of the Democratic indictment? Has Gov. GEARY used his prerogative so freely as to bring odium upon the public clemency and suspicion upon his official judgment? The record will best answer these questions. We have examined this record with care. We find that, of the sixteen Governors which this Commonwealth has had, including the present incumbent, from 1791 to this date, eleven of them show higher yearly averages of pardons and remissions than he. Gov. POLLOCK averaged 53 per year, Gov. PACKER 72, Gov. SHUNK 81, Gov. WOLF 83, and Gov. GEARY 86. None of the remaining eleven had averaged less than 100, ranging from 108 for Gov. BIGLER to 434 for Gov. FINDLAY. These figures decisively refute the Democratic fabrication against the integrity and discretion of the present Executive.

We may add that JOHN W. GEARY is the first Governor of Pennsylvania who has uniformly enforced the wise regulation requiring a wide public advertisement of any pending application for the benefits of his merciful prerogative. And, with equal uniformity, the grant of his pardon is always followed by the public announcement of the names of such officials and citizens as have recommended that case to his tender regard. The truth is that Gov. GEARY has given offense in some quarters by the pertinacity with which he insists upon this policy. Considering these facts, the reader may form a better estimate of the true value of the slanders to which reference is here made.

THE ALLEGHENY LIBRARY.

The Allegheny Library is a worthy institution struggling for existence. In order to maintain itself it has requested the Councils of that city to grant it the use of a suitable room in the city buildings. This request, the Councils have for some time acceded to, but now the city needs more office-room, and the question has arisen concerning this room, whether it shall be taken from the Library for the new office, or shall be allowed to remain devoted to its present uses. We do not propose to discuss this question at all. The Councils have an undoubted right to dispose of the city-buildings in such manner as they may deem most desirable for the public interests. There may be a difference of opinion as to whether the rendering of assistance to this Library is the most profitable use that can be made of the room, or not. But we were exceedingly surprised to learn that a member of the Councils should doubt the general utility of the institution, and should urge as an objection that "it was only a place for young men who would go there *fixed up*," and was no benefit at all to any others. The Allegheny Councils have recently shown so much evidence of progress and public spirit that we must confess that we had not looked for such words as these from a member of that body. If the statement were true it could scarcely be regarded as an objection, for, as another member observed, it is a good sign when young men begin to show a taste for such neatness and cleanliness, as may be supposed to constitute the "fixing up" referred to.

But the mis-information of the Councilman was so complete as to lead us to wonder where he could have gone for his facts. We have not very often visited the Library rooms, but at our occasional visits we have seen very many more plainly-dressed young women than "fixed-up" young men. No city has a more important duty to perform than the provision of instruction and profitable recreation for its young women of the poorer or working classes, and there is no class of citizens which so thoroughly avails itself of any such provision as does this. Many years ago, thanks to private munificence, the Anderson Library was established in the same city, for the use of young men, particularly of apprentices, and was very largely used by the class for which it was especially intended. If we remember correctly, this collection was, at a later day, incorporated in the Allegheny Library, and we cannot think that merely because many more new books have been added, a much more comfortable situation secured, and the capabilities for usefulness largely increased, the apprentices and working-men have ceased to enjoy the opportunities offered to them. If they have, it must be looked upon as their own fault, and not that of the Library; certainly, however, our own slight personal experience, with what we have heard from others, leads us to infer that the Councilman's rash assertion was as devoid of fact as it undoubtedly was of good taste.

ALAS! POOR YORICKS!

Since the Democracy of Allegheny county have been sold out to a "bloated bond-holder" as their candidate for Governor, they feel but little stomach for a square fight on the local offices. The truth seems to be that there is not enough of that party left here to claim a healthy existence, much less to support a full county ticket of their own. The betrayal and defeat of their favorite candidate at Harrisburg has hopelessly demoralized them. The fight seems, to use the language of the prize-ring, all knocked out of them. Well, they must not blame Republicans altogether for that! It is a foul blow from their own "friends" which has sent them finally to grass. A writer in the Pittsburgh *Post* of yesterday throws up the sponge, and the editorial bottle-holder, equally demoralized, don't know whether to endorse or condemn the surrender. It is now proposed that their coming county convention shall make no local nominations, remitting the Democracy to the privilege of voting for such stump or volunteer candidates as may thrust themselves into the field; or else for the regular Republican ticket. The party went about half-way in this direction last year, but, instead of learning wisdom from their doleful experience with the Burtts and Fosters, and the other played-out disappointed office-seekers whom they welcomed and tried to honor as deserters from the Republican ranks, they seem bent upon completing their ruin by another trial of the same disastrous policy.

Very well, gentlemen! It is your affair, and not ours! If you are so miserably poor in the right stuff for Democratic candidates, you can look about for disappointed aspirants whose axes were not ground by the Republican Convention, or you can vote for our regular ticket, as a good many of you did last year, rather than sanction the stupid blunder of your leaders in attempting to crowd a handful of sore-headed Republicans down your throats. Vote our ticket again, and we shall have a good opinion of your patriotism and good sense; or vote for such unhappy victims of disappointed personal ambition as you are now attempting to seduce into an "independent" movement, and you will earn the gratitude of our party, and the deep execrations of such of your own friends as are really Democrats from principle? But will you help Packer thereby as much as you will help the Republican party? Have you not still the honor of counting Foster and Burtt among your Democratic recruits? Then why not try those gentlemen again—for the Judgeships, for example? Or do you think you can rake Republicanism here with your fine tooth combs, finding other candidates of the same sort to serve your purpose?

We submit to the Allegheny Democracy that when they can no longer find seventeen decent men capable and worthy of official trust, in their own ranks, it is full time for them to disband their whole concern. Not even PACKER'S greenbacks, which their leaders will monopolize, can save them from the disgraceful defeat which will be inevitable after such a humiliating confession.

JOHN A. ROEBLING.

With regret we learn that JOHN A. ROEBLING, the great civil engineer, died on the 22d inst., in Brooklyn, from lock-jaw, occasioned by an injury received while surveying the grounds for the East River Bridge. No Pittsburgher will ask "Who is JOHN A. ROEBLING?" Two monuments of unequal pretensions exist here which, we trust, will long remain as triumphs of his skill, to transmit his name to posterity—the suspension-bridges over the Monongahela and Allegheny rivers. The former, built after the great fire of 1845, and limited to the small sum of sixty-five thousand dollars, is a triumph of economy; and the latter, erected in 1860, is a triumph of art. When the Allegheny suspension bridge was completed, some one asked Mr. ROEBLING what was its strength? He replied: "No weight which will be placed on it will crush it; and it will resist nine times the force of ordinary tempests." When the Duke of New Castle was crossing it, with the Prince of Wales, he exclaimed, "What a beautiful structure!—Who built it?"

JOHN A. ROEBLING was born in Prussia and educated in the National Polytechnic School at Berlin. After graduating, he was employed in making a government road over a mountainous district. He asked the Chief Engineer for the necessary instruments. The reply was, "You must get your own instruments. If you will ever become an *Engineer*, a jack-knife will be capital sufficient to begin with." The success of ROEBLING won the approbation of his chief; and he told the writer of this that the jack-knife anecdote did him immense service in life. Like another great civil engineer, Ericcson, he found but a limited field for his genius in his native country, and early in life sought the United States, whose institutions were in harmony with his political sentiments, and where, without fortune or friends to aid him, he hoped to succeed even though his capital might be reduced to his jack-knife. He came to this State and settled in Butler county, where he married, and where, we believe, his son, Col. WASHINGTON ROEBLING, who inherits his father's ability, was born. Mr. ROEBLING was for a while an assistant engineer on the early Pennsylvania State Works. He erected a wire factory in Butler county, and made the wire for the Monongahela bridge. After his removal to Trenton, New Jersey, he erected a large manufactory for wire rope at that place, where the strands were spun for the Allegheny suspension bridge. The construction which brought him into general notice, and indeed founded his great reputation, was the suspension bridge over the Niagara River below the Falls. This was succeeded by our own beautiful bridge over the Allegheny. The grand structure over the Ohio at Cincinnati was his crowning work. He planned the East River Bridge at New York, and would have built it if he had lived, but to another must come the glory of its completion; and doubtless the name of "ROEBLING" which gave life to the enterprise at its inception, will be associated with it when New York and Brooklyn will clasp hands in the triumphal ceremony which will unite them forever.

Col. WASHINGTON ROEBLING, the assistant of his father in his great works, will probably be his successor in this.

Mr. ROEBLING was a man of great energy of character, and a "business man" in every sense of the term; frugal in his wants, punctual in his engagements, cautious in undertaking, but immense in force when once he had determined upon action. He accumulated a handsome fortune, not in speculation, for he never gambled in stocks or money, but in the legitimate investment of the compensation of his labors. He was the largest holder of the stock of the Allegheny bridge, foreseeing, beyond most of our citizens, the future value of that admirable investment; and he was also one of the largest share-holders of the Niagara bridge and of the Cincinnati bridge. When the projectors of each of these works were seen to hesitate in view of a large cost and their doubts as to the remuneration, Mr. ROEBLING said, "Don't hesitate, gentlemen! The bridge will pay, and I will put in my own money with you." His scientific views were cosmopolitan. His philosophic ideas were Teutonic. The great thinkers of Germany were a source from which he drank deeply, and he always sought the fountain rather than the stream. He was a progressionist; regarding past ideas as belonging to the childhood of the race, and believing in the growth and grandeur of humanity in the great future, and the present age as the mere opening of a development of which the flower and fruit will come in due process when the time is ready.

RELIGIOUS INTELLIGENCE.

There is a trio of veteran ministers that evidently did not acquire wealth by inheritance or marriage, and then quit preaching under the belief that their throats were affected with bronchitis. We group them together as worthy of special notice: Rev. Charles Cleveland, now in his *ninety-eighth* year, the veteran city missionary of Boston, lately preached in Springfield street Chapel, and had among his auditors one man who was one hundred years of age. Rev. Charles G. Finney, of Oberlin, now nearly *eighty* years of age, recently preached two able sermons on the same Sabbath. Dr. Peter Cartwright, the great pioneer preacher, is now doing his *fiftieth* year as a Presiding Elder in the Methodist Episcopal Church, a greater period than any other minister in that church ever held that office. It is a rare thing for a minister to hold the position a quarter of a century. The venerable doctor is in the *sixty-eighth* year of his regular ministry. He must be nearly ninety years old.

The new Church of the United Brethren in Christ, at Wilmot, Starke county, Ohio, will be dedicated August 15th, 1869. Bishop Weaver and other distinguished ministers are expected to officiate on the occasion.

The *Banner* says Mr. David Gregg, of Pittsburgh, Pa., licentiate, has been chosen pastor of the Third Reformed Presbyterian Church (O. S.) in Twenty-third street, of which the Rev. J. R. W. Sloane was formerly pastor.

The *Presbyterian* calls attention to the need of the Presbyterian church at Santa Fe, the only church of that denomination in the Territory of New Mexico. It requires assistance in order that the mission may be successful. The *Presbyterian* will transmit any donations given for this excellent object.

At a recent meeting of the Board of Directors of Domestic Missions, the project of raising *half a million of dollars* for the purpose of establishing churches in the West, in commemoration of the re-union of the two branches of the Presbyterian church, which is expected to be consummated in November next, is commended as worthy and desirable, and is recommended to the two General Assemblies.

Since the General Assemblies adjourned, eleven New School Presbyteries and twelve Old School Presbyteries, have voted unanimously for re-union, except one vote in New York and four votes in Philadelphia.

The new St. Johns Episcopal church, East Hartford, Conn., is to be quite a St. Albans affair. At least the elaborate description of its candles and altar clothes would so indicate.

The American Catholic College, at Rome, has thus far received one hundred and eighty-nine thousand dollars toward its endowment, through the energetic labors of Father Duane.

According to the New York *Times* the lack of young men for the ministry is not owing to the distaste for the clerical profession, but because they are paid such poor salaries that very few young men are willing to enter upon the work.

Twenty camp meetings are to be held within a radius of about one hundred miles of this city, during the month of August. Tarentum, McKeesport, and Leetsdale meetings are within a few miles of the city, and are likely to be largely attended.

Rev. Henry Slicer, who was Chaplain of Congress for several years, is now and has been for many years Chaplain of the Seamen's Bethel, Baltimore, is nearly fifty years in the itinerancy and effective all the time. Not long since a friend inquired how it is that he has preserved so remarkably the health and vivacity of his early years, to which he jocosely and emphatically responded, "By abstaining from tobacco and whisky, and doing the full work of a Methodist preacher."

A call has been issued, numerously signed by ministers and laymen of different denominations, for a Convention of all Evangelical Churches of the State of Ohio, to be held at Columbus, on November 30th and December 1st and 2d. Each church is invited to send its pastor and two laymen. The main object of the Convention is to consult in regard to the best and most appropriate means of reaching the masses with the Gospel. The *Religious Telescope* says similar conventions are announced to be held in several of the Middle and Western States this fall and winter, about in the following order: Illinois, Missouri, Ohio, Indiana, Minnesota, Michigan, Wisconsin, Kansas. Why not in Pennsylvania, too, as we surely need one?

It is stated Rev. R. J. Nevin, of the Church of the Nativity, South Bethlehem, is to succeed Rev. Dr. Lyman, at the American Chapel at Rome.

The Classics of (Dutch Reformed) New York, at its late session examined a young colored man, William L. Johnston, a member of the South Church, New York City, and a graduate of Lincoln University, Oxford, Pennsylvania.

The *Banner of the Covenant*, published at Philadelphia, has been compelled to suspend its publication. This paper is frequently styled Mr. George H. Stuart's paper.

According to the *Presbyterian*, the membership of the Baptist Church at Salem, New Jersey, has increased to such an extent that a new Society is about being organized. The number who will join this movement is about one hundred.

Congregationalism appears to be prospering in Ohio. There are some ten or twelve churches without houses of worship, which must have aid to build. The *Advance* represents that at the late State Conference, Rev. Edward Anderson, of Ashtabula, was appointed Secretary of church building for the State, auxiliary to the Congregational Union, to advance the cause in Ohio, and secure funds for that purpose.

It is humiliating to learn that *some* congregations pay their ministers such poor salaries that they are forced to teach, practice dentistry or do something else, or their wives are compelled to teach music in order to secure a comfortable living. The *Churchman*, in a late issue, gives an instance, and we know cases of a similar character. We hope few congregations will allow this charge to be made against them.

Immense Wool Sales.

(By Telegraph to the Pittsburgh Gazette.)

PHILADELPHIA, June 23.—The sales of wool in this city this week have been immense, reaching nearly two million dollars, of which amount one house sold over a half million dollars.

—At Dubuque a man named Silas McGee, while in a small boat in the Mississippi, was run down by the steamer Tom Jasper and drowned, on Thursday. At the same place Robert Richards fell from a scaffold, where he was at work, and was killed.

CITY HALL.

Its Changes and Improvements—The Model Place for Lectures, Concerts Balls, Parties and Public Meetings

We have previously announced that under the very wise appropriation of City Councils, the Market Committee have been making a series of important improvements and changes in the interior of City Hall, which is by all odds the largest, safest, most attractive and best ventilated place for parties, balls, fairs, concerts and lectures in Pittsburgh. These improvements have just been completed, and the Hall will be thrown open shortly for public inspection. The Market Committee last evening met, and after examining the fine fresco and painting work, concluded to accept the job as finished, from Mr. J. Stuleman, the artist, who had the contract. That he discharged his work well and faithfully and in such manner as to leave no doubt of his superior skill and attainments in his line, is amply evidenced in the elaborate and beautiful furnish and design of the walls and ceilngs of the hall. The colors have all been well chosen and their blending develops the exquisite taste of the artist. Mr. Stuleman has studied frescoing under the most accomplished American and Italian artists of the eastern cities and has attained wide reputation by the excellence and finish of his work. City Hall as left by his hands is a marvel of neatness and as pretty as any could desire. The painting and frescoing of the office rooms and entrances have not yet been quite completed, but will be before the close of next week.

Material changes in the design of the hall have been made, the principal of which is the carrying forward of the music gallery some fifteen or twenty feet into the body of the hall. This change supplies the long felt want of a dining room in the hall, and in itself is a decided attraction. In this gallery two hundred couple can be comfortably accommodated at the graceful supper tables, or if desired for dancing purposes twenty sets could conveniently be formed in a quadrille. Kitchens and larders are connected with the dining gallery and supplied with cooking ranges and stores, so that no difficulty need be experienced in getting up suppers for parties in good style. This addition does not detract from the general beauty of the hall, but to the contrary improves it and gives it a more graceful, light and beautiful appearance. It is proposed by the Committee to keep City Hall in good order and repair at all times, and to exact a fair rent for its use. If political parties chose to use it for political purposes the transient rates will be charged, as the idea of the gentlemen having it in charge is to realize a revenue to the city from it, as there are no reasons why such a first-class, well appointed and attractive hall should not yield profit to the municipal treasury.

We feel proud of City Hall as it now is and hope strenuous efforts will be made to keep it always in equally good order and condition. We are not advised how it will be re-inaugurated, but whatever is first held in it will be sure to pay, as the public have been on the alert of expectation to participate in such an occasion. The hall is now ready for engagements, and as many applications are already pending for the party season approaching, our friends should bestir themselves if they desire to secure it for any occasion, as its popularity is only commencing, and it will hereafter have the call and prove the favorite of the city.

ONE OF THE MOST ASTOUNDING CURES EVER PUBLISHED—ATTESTED BY OVER FIFTY WITNESSES.

The remarkable cure of Miss Fisher, of Beaver county, is one worthy of more than a passing notice, especially when so many persons are suffering not only with diseases of the eyes, and partial or total blindness, but likewise with other chronic ailments which Dr Keyser has treated with such astounding success.

The lady concerned was doomed to perpetual blindness, which through Dr. Keyser's skill was completely removed, the truth of which has been vouched for by a sufficient number of witnesses to establish the fact beyond all cavil. The subjoined letter from the young lady's brother speaks for itself:

DR. KEYSER—This is the list of names that I have to the cure of my sister, Christiana Fisher. They were all willing to put their names down, and were very much astonished to see that you brought her sight so soon. My mother sends her thanks to you; she says "you are one of the greatest men in the world." She says if we had not come across you she believes her child would not be living at this time. We all join in sending our love and respects to you.

S. P. FISHER,
North Sewickley.

We, the undersigned, know of the cure of Miss Fisher, and bear willing testimony to the fact above stated.

THE WORLD GROWS WISER.

The human stomach has been a shamefully persecuted organ. There was a time when for every dereliction of duty it was punished with huge doses of the most disgusting and nauseous drugs. In vain it rejected them, and (literally) returned them upon the hands of those who administered them. They were forced upon it again and again, until its solvent power was thoroughly drenched out of it.

The world is wiser now than it was in that drastic era, when furious purgation and mercurial salivation were what Artemus Ward would have called the "main holt" of the faculty, in cases of dyspepsia and liver complaint.

The great modern remedy for indigestion and biliousness is HOSTETTER'S STOMACH BITTERS, a preparation which has the merit of combining a palatable flavor with such tonic properties, and antibilious properties, as were never heretofore united in any medicine.

It has been discovered, at last, that sick people are not like the fabled Titans, who found prostration so refreshing that when knocked down, they rose from the earth twice as vigorous as before. When an invalid is prostrated by powerful depleting drugs, he is apt to stay prostrated; and the debilitated being, aware of the fact, prefers the *building up* to the *knocking down* system of treatment.

HOSTETTER'S BITTERS meets the requirements of the rational medical philosophy which at present prevails. It is a perfectly pure vegetable remedy, embracing the three important properties of a preventive, a tonic, and an alterative. It fortifies the body against disease, invigorates and re-vitalizes the torpid stomach and liver, and effects a most salutary change in the entire system, when in a morbid condition.

In summer, when the enfeebling temperature renders the human organization particularly susceptible to unwholesome atmospheric influences, the Bitters should be taken as a protection against epidemic disease.

Safety Fire Jacket, Car Heater and *MODERATOR.*

For Smoke and Hot Air Flues, dispensing with the use of stoves and fire in or about the Passenger or Baggage Cars, with the attachment to graduate the heat to any temperature that may be desired without the possibility of firing the car or cars to which the Jacket may be attached. Having obtained of the United States Letters Patent for a Safety Jacket, which is warranted to resist the most intense heat that may be applied to it in the position and purpose for which it is intended.
It is a sure protection from accidents by fire, originating from defective flues or where iron pipes are used as conductors for smoke or heat. It is applicable to all piping that may become overheated, and is warranted to give perfect satisfaction where wood or other combustible material may be placed in close proximity thereto. I am now ready to apply my invention to stores, dwellings, factories, ships, steamboats, railroad cars, &c. Wherever pipes as conductors are made dangerous by being overheated and security desired, I will send on application right to manufacture or use the above invention. Also Territorial rights to such as may wish to engage in selling privileges either by State or county.

FINANCE AND TRADE.

OFFICE OF PITTSBURGH GAZETTE, FRIDAY, July 23, 1869.

Gold opened strong at 135⅝ to 135¾; but declined toward the close of business, to 135⅜ firm. Buyers of gold are good houses who expect an early rise of some magnitude. The only bears in the market are some foreign bankers who count on a lively export business in bonds, and consequently redueed specie shipments. If the government sales would begin again on a larger scale, a sharp decline of two or even three per cent. would inevitably follow, and on this the hope of those who are short, are depending.

Government bonds remain dull, with a very light business. The uncertainty about the government's financial policy for the next month prevents large operations for either rise or fall, and bonds are more liberally offered to allow of an upward movement on account of scarcity of bonds for delivery.

Stocks are firm in New York roads, also Express shares. The western railways shares are inactive.

Money is getting scarce in our local markets, whilst business is dull.

Quotations as received by Ph. R. Mertz: Gold, 135⅜; Silver, 129; Eighty-one's, 121; Five Twenties, 1862, 123½; do 1864, 121½; do 1865, 121¾; do 1865, Consols, 120⅜; do 1867, 120½; do 1868, 120¼; Ten Forties, 110¾; New York Central, 213¾; Erie, —; Reading, 95⅜; Pittsburgh, Fort Wayne & Chicago Railroad, 52¼; Ohio & Mississippi, 31½; Michigan Southern, 103¼; Cleveland & Pittsburgh, 107½; Chicago & Rock Island, 114¼; Chicago & North Western, 79⅜; Chicago & North Western Preferred, 94; Adams Express Company, 60¾; Merchants Union Express, 10½; Pacific Mail, 83½; Western Union Telegraph Company, 36½; Am. PETROLEUM MARKET.

OFFICE OF PITTSBURGH GAZETTE, FRIDAY, July 23, 1869.

The oil market was rather quiet and a little weak to-day, though compared with yesterday prices have undergone no quotable change. It would appear that it was the New York "shorts" that bought the large lots sold within the past day or two. New York it seems is largely "short" for this month, while, on the other hand, Pittsburgh is largely "long," and as a consequence, the former is disposed to be "bearish" and the latter "bullish"—the one is interested in having higher prices, while the other is bringing every influence to bear to force a decline. The "shorts" can afford to pay more than exporters, and still realize a margin, and as a consequence the latter are reported as doing but little, as they cannot successfully compete with the former. That there are some "shorts" here, is conceded, but it is said that the short interest here this month, is very small compared with June.

REFINED.

The market opened steady, with intimations that 32 could probably be realized for July; offers were made to sell at 32, but failed, 31¾ being the best bid that could be realized, and 5,000 was sold at that figure, but subsequently for some reason or other, fell through. The sales reported were as follows: 1,000 July, at 31¾; 500 do, at 31¾; 500 do, at 31⅝; and 1,000 August, last half, at 32½. Lines for the late months quoted at 33 and buyer all year, 34½.

CRUDE.

Sales 1,500 July, at 14¾; 2,000 seller next 13 months, at 13; 2,000 next 15 days at 14¾; 2,000 seller all year, at 14½; and 2,000 seller October to December, at 14½. Private advices reported a stronger feeling in the oil regions, yet sales could not be effected at an advance.

PITTSBURGH IRON MARKET.

OFFICE OF PITTSBURGH GAZETTE, FRIDAY, July 23, 1869.

The metal market is quiet and unchanged. There is considerable inquiry for small lots of desirable foundry iron and but little of this particular grade to be had. Mill Irons are not sought after, most of the mills having suspended operations, but with light arrivals and no accumulation of stock, prices remain about the same as last week.

Manufactured Iron and Nails quiet—orders not very abundant and mainly of an unimportant character. Strong hopes are entertained, however, of a good fall trade.

DEMOCRATIC CAMPAIGN SONG.

Sung by the Cass Clubs on their return from the Democratic Convention at Harrisburg:

Amid scenes of confusion,
And brandy and gin,
We formed a collusion,
And for Packer went in.

Cass is all an illusion,
And would never have paid;
Hancock, a la delusion,
And hangman has played.

Packer, the dearest and best,
O, the altar we lay,
For with the stamps he is blest,
And for the drinks will pay.

And what care we for the right,
What care we for the name;
We fight for the coin, so do'nt hit,
And greenbacks, all the same.

CLIPPINGS.

THE mountain just below Dauphin, Pa., is 900 feet high, measuring from the Susquehanna river low water mark.

THERE are about 8,000 women employed in Lyons skeining silk. They have lately struck for an advance to fifty-six cents (currency) per day, from forty cents which they have been receiving.

SOME of the farmers of Dauphin county, Pa., this year gathered their crops of wheat, hay and oats all in the same week. This is remarkable, considering that almost invariably several weeks elapse between the ripening of these three valuable products.

THE municipal authorities of Berlin have at length fixed on a suitable monument in honor of Humboldt. They propose to proceed at once to the completion of one of the two new parks which have been projected, and to give it the name of "The Humboldt." The bust of the great philosopher is to be placed in a little temple open on all sides and erected in a conspicuous position. A small botanical garden for the use of students is to be formed within the enclosure.

AN Arkansas Republican paper thus refers to the conservative groans over the recent ruin of the South: "A few months of Radical reign, and alas for the evidences of gross misrule. Several hundred free schools in operation and buildings for several hundred more in process of construction. What an imposition upon the people. One railroad rapidly building and several more actually under contract. Immigration rapidly setting in, too, and, horror of horrors, all of the Radical type!"

A CORRESPONDENT of the Philadelphia *Ledger* writes that a relative, a youth, who had been afflicted with epilepsey for the period of three years, or from the age of fourteen to seventeen, was completely cured by the administration of bromide of potassium, in increasing doses up to a certain quantity. The attacks became gradually fewer, and in about two years ceased entirely. It is asserted that not the slightest symptom of a convulsion has appeared in the patient for over three years.

THE German gambling-houses will be suppressed at the expiration of their present leases, and the Legislature of Belgium, by a recent vote, has fixed October 31, 1871, as the time when that class of establishments shall cease to exist at Spa. The inhabitants of Nice have recently petitioned the French Senate to root out the great stronghold of gambling at Monaco, and in two years' time, it is asserted, there will be no public gaming tables in Western Europe, except at the English colony of Heligoland.

A FORTNIGHT ago, at Napoleon, Ohio, two boys named Cameron, aged nine and fourteen, were sent to bed supperless and threatened with a thrashing in the morning. In the night they got up, walked five miles to a railroad station, went to Chicago, thence to Baltimore, and since leaving the latter place the persons employed by Mr. Cameron to find the boys met with no success. They can not be caught. They seem to have no definite object in view, but when a train of cars drives up they get on and travel to the end of the line,

A STREET RAILROAD has been constructed in Brussels by a single Englishman, without company and without shares. It is not yet complete, being without station or office, and the public ask for regulations and numerical tickets, as in Paris. The Englishman answers tranquilly that he has conducted a tramway which can convey twenty thousand passengers in a day, without tickets and without police; and that he believes even in Brussels, where the people know how to conduct themselves, when the works are complete, he shall do the same.

SENTER one of the candidates for Governor of Tennessee, is on the stump and thus attempts to wheedle the feminine element: "Ladies, a word before we part—when the day for election arrives, get up early, prepare a good breakfast, have the shaving water and towel ready, let nothing but smiles and cheerfulness possess you, and when the good man starts for the polls, go with him to the gate, put your arm about his neck, kiss him, then ask him to vote for Senter. Again, I thank you." A plain and simple road to woman suffrage without change of Constitution or shock to Mrs. Grundy.

THE New York *Times* remarks that, "The idea of Mr. Koopmanshoop, the great Chinese Coolie agent, in visiting New York, is to take a survey of the country, in order to form an opinion of its capacity for the employment of Chinese labor. If he receive encouragement, especially in the Southern States, he will undertake the importation of Chinamen on a huge scale. He will employ all available vessels, and his agents in China will be prepared to fill them with human freight as fast as they arrive. We may soon see the inseting of a Mongolian tide, which is capable of rising to any conceivable magnitude."

IN PHILADELPHIA, the other day, among the bills of indictment returned by the Grand Jury was one charging a young man with sending a false telegram. When the District Attorney came to investigate the matter, he discovered that the young man was engaged to be married to a young lady whose parents were opposed to the match. In order to prevent the union the parents sent the young lady to some friends in the West. The young man, not to be outwitted, sent a dispatch to the West, setting forth the serious illness of the mother of his affianced. In response the young lady came to Philadelphia, where she was met by the young man, and both visited a clergyman, where the marriage ceremony was performed. This incensed the parents, and hence the charge. The District Attorney abandoned the case, submitted the bill to the jury without evidence and a verdict of not guilty was rendered.

A Laudation of Lager.

A writer in Tuesday's Boston *Transcript* discourses thus upon the philosophy and imbibition of lager beer:

"The impression that Germans use lager beer to an excess is an erroneous one, whether it refers to those among us or those in the Vaterland. Many persons fancy that the Teutons assemble at night in their saloons to make enormous and intemperate exhibitions of their natural beverage, and to make 'beasts of themselves.' But those who understand this valuable class of our citizens know that their gatherings are not Bacchanalian, but social, and that conversation and not inebriation is the object sought after the labors of the day. Those who are accustomed to the use of lager beer consume daily but little of it; perhaps not much more than habitual tea drinkers do cups of tea.

"A boy who had suddenly received the freedom of a candy shop would, no doubt, for a few days cause to disappear a great number of sticks; but soon his appetite would be cloyed, and sweet things would sink to a low rank among the luxuries of appetite, and be for many days untasted. So it is with our sound-headed Germans; while hours are spent in social *unerhaltung*, perhaps not more than one or two glasses of beer are swallowed, and the brain is left as *unbenebelt* as before. Whatever may be said of national beverages, the German brain will retain the ascendancy which it has already won; and on the continent of Europe its range is la(r)ger than any other; and if the nation advances (under the lead of Prussia) as fast as it has done for the past century, its future in the eastern world will open as brightly as that of the United States in the western."

Premature Interment.

It is well known that cases of premature interment are of too frequent occurrence. To prevent death from this cause, Mr. Im. Pfeiffer, of Copenhagan. has invented an apparatus which he thinks will effect this object. The arrangement consists of an electro-galvanic battery, which generates positive and negative currents, from which battery two wires are run which connect with an electrical apparatus placed in a small brass tube inclosed in a larger pipe that is inserted in an aperture in the lid of the coffin in which the person supposed to be dead is buried, The moment even pulsation commences in the body an alarm is rung by the battery, which notifies the person in charge of the cemetery that life is not extinct. Each apparatus is numbered to correspond with the grave, so that immediate assistance can be given. Mr. Pfeiffer gives practical illustrations of his invention at the Cooper Institute.

A CORRESPONDENT, who recently had an interview with Ex President Franklin Pierce, says: "During the past two years the health of the General has not been remarkably good; but with the exception of about three weeks during the past winter, he has been able to ride and walk almost daily. During the interval referred to he was quite low for several days, and his medical attendants and his friends entertained serious fears of the result. With careful nursing and skillful treatment he overcame a sickness which promised to result fatally, and he is today in the enjoyment of better physical health than he has enjoyed for years. In appearance, he seems younger than when the Presidential mantle rested upon him. Those who remember him in Washington would readily recognize him in Concord, however, for he maintains the smooth and clean shaved face which was always one of his characteristics, and his broadcloth and beaver are still of the same spotless black, and the same elegant and tidy fit. His step is as sprightly as that of a young man of twenty."

THE Philadelphia Mercantile Library has been removed to its new building on Tenth street, above Chestnut. The first officers of this library were elected in January, 1822, Mr. Robert Wain being the first president. The library opened in March, 1822, on the second floor of the house No. 100 Chestnut street. In 1824 the association numbered 380 members, and the library contained 1,500 volumes. A newspaper reading room was added in 1825, and in 1826 the members resolved themselves into a joint stock company; the books, furniture, &c., were valued at $3,000; and 300 shares, at $10 each, were issued and subjected to an annual tax of $1 each. In January, 1829, two hundred additional shares were authorized. After several removals, the lot at Fifth and Library streets was purchased in 1844, and the building was completed in 1845, at a cost of $23,199 42. The Library now contains 52,000 volumes. The membership last year numbered 6,377. The total receipts during the same period amounted to $26,896.

A RATHER singular phase of the old-fashioned parish usages of the Puritanic forefathers has just come to light in the staid and sober town of Hanover, Mass. The Rev. Mr. Freeman was settled as pastor of the First Congregational Church and Society some 15 years ago. Mr. F., in his zeal to promote the Master's cause, made himself obnoxious to some of the young men by strenuously opposing the use of the Town Hall for balls and kindred gatherings. Thereupon the young men sought revenge in an unheard of and novel manner. Not having sufficient grace to join the church, they applied for admission to the parish, where grace is not a requisite for membership. They were received, and all went smoothly until the annual parish meeting, when the new members voted not to raise anything the coming year for the payment of the pastor's salary, thus virtually and summarily dismissing that gentleman from the duties of his office.

A COTEMPORARY says:—"On Wednesday the Democratic party of Pennsylvania was put up at auction to the colossal railway corporations of the country. The New York combination bid highest and got the concern."

SO MUCH for the "Poor Man's Candidate!" Judge Packer has grown immensely rich on the toil of the poor, and has always made it a point to purchase that toil at the lowest figure. So that wealth flowed into his coffers it mattered not to him how much of suffering and privation was endured by the men in his employ Are the toiling millions willing to vote for such a man to be the Governor of this great State?

IT is understood that in addition to the existing statutes prohibiting the importation of Coolie labor, a bill will be introduced at the next session of Congress rendering all contracts with foreigners, made in foreign countries, for labor, null and void on the arrival of the laborers in this country.

SPECIAL NOTICES.

☞ **SCHENCK'S PULMONIC SYRUP, SEAWEED TONIC AND MANDRAKE PILLS** will cure Consumption, Liver Complaint and Dyspepsia, if taken according to directions. They are all three to be taken at the same time. They cleanse the stomach, relax the livor and put it to work; then the appetite becomes good; the food digests and makes good blood; the patient begins to grow in flesh; the diseased matter ripens into the lungs, and the patient outgrows the disease and gets well. This is the only way to cure consumption.

To these three medicines Dr. J. H. Schenck, of Philadelphia, owes his unrivaled success in the treatment of pulmonary Consumption. The Pulmonic Syrup ripens the morbid matter in the lungs, nature throws it off by an easy expectoration, for when the phlegm or matter is ripe a slight cough will throw it off, and the patient has rest and the lungs begin to heal.

To do this, the Seaweed Tonic and Mandrake Pills must be freely used to cleanse the stomach and liver, so that the Pulmonic Syrup and the food will make good blood.

Schenck's Mandrake Pills act upon the liver, removing all obstructions, relax the ducts of the gall bladder, the bile starts freely, and the liver is soon relieved; the stools will show what the Pills can do; nothing has ever been invented except calomel (a deadly poison which is very dangerous to use unless with great care,) that will unlock the gall bladder and start the secretions of the liver like Schenck's Mandrake Pills.

Liver Complaint is one of the most prominent causes of Consumption.

Schenck's Seaweed Tonic is a gentle stimulant and alterative, and the alkali in the Seaweed, which this preparation is made of, assists the stomach to throw out the gastric juice to dissolve the food with the Pulmonic Syrup, and it is made into good blood without fermentation or souring in the stomach.

The great reason why physicians do not cure Consumption is, they try to do too much; they give medicine to stop the cough, to stop chills, to stop night sweats, hectic fever, and by so doing they derange the whole digestive powers, locking up the secretions, and eventually the patient sinks and dies.

Dr. Schenck, in his treatment, does not try to stop a cough, night sweats, chills or fever. Remove the cause, and they will all stop of their own accord. No one can be cured of Consumption, Liver Complaint, Dyspepsia, Catarrh, Canker, Ulcerated Throat, unless the liver and stomach are made healthy.

If a person has consumption, of course the lungs in some way are diseased, either tubercles, abcesses, bronchial irritation, pleura adhesion, or the lungs are a mass of inflammation and fast decaying. In such cases what must be done? It is not only the lungs that are wasting, but it is the whole body. The stomach and liver have lost their power to make blood out of food. Now the only chance is to take Dr. Schenck's three medicines, which will bring up a tone to the stomach, the patient will begin to want food, it will digest easily and make good blood; then the patient begins to gain in flesh, and soon as the body begins to grow, the lungs commence to heal up, and the patient gets fleshy and well. This is the only way to cure Consumption.

When there is no lung disease and only Liver Complaint and Dyspepsia, Schenck's Seaweed Tonic and Mandrake Pills are sufficient, without the Pulmonic Syrup. Take the Mandrake Pills freely in all bilious complaints, as they are perfectly harmless.

Dr. Schenck, who has enjoyed uninterrupted health for many years past, and now weighs 225 pounds, was wasted away to a mere skeleton, in the very last stage of Pulmonary Consumption, his physicians having pronounced his case hopeless and abandoned him to his fate. He was cured by the aforesaid medicines, and since his discovery many thousands similarly afflicted have used Dr. Schenck's preparation with the same remarkable success. Full directions accompany each, making it not absolutely necessary to personally see Dr. Schenck, unless patients wish their lungs examined, and for this purpose he is professionally at his Principal Office, Philadelphia, every saturday, where all letters for advice must be addressed. He is also professionally at No. 32 Bond street, New York, every other Tuesday, and at No. 35 Hanover street, Boston, every other Wednesday. He gives advice free, but for a thorough examination with his Respirometer the price is $5. Office hours at each city from 9 A. M. to 3 P. M.

Price of the Pulmonic Syrup and Seaweed Tonic each $1.50 per bottle, or $7.50 a half dozen. Mandrake Pills 25 cents a box. For sale by all druggists. my19:151-d&F

NOTICE IS HEREBY GIVEN that THOMAS T. SMITH has made application for a change of

CITY AND SUBURBAN.

THE GAZETTE *is furnished in the city the six days of the week for* 15 *cents per week; by mail,* $8 *per annum:* 3 *mos.,* $2.

Council Meeting.—The regular monthly meeting of City Councils will be held on Monday next at two o'clock P. M.

Surety of the Peace.—Lavinia Moss made information before Alderman Taylor, yesterday, against William Caughey for surety of the peace. She alleges that Caughey threatened to kill her. A warrant was issued.

Robbed.—Two of the boarders at Mrs. Cochran's on Ninth street, Thursday evening, were robbed, one of a silver watch and four dollars in money, the other of an English sovereign and two dollars. No clue to the thief has been ascertained.

Trespassing.—John Miller was in the Allegheny Park, yesterday, and wishing to get out took a near cut ocross the grass and flowerbeds and over the fence, instead of going by the gates. The next near cut was to the Allegheny Mayor's office, where Mayor Drum fined him five dollars for the trespassing.

Mania.—Last evening, about seven o'clock, John Sweeney came to the watch house and desired lodgings for the night. Captain Graham asked him why he desired to stay there, to which he replied that he had been followed for several hours by several men who wanted to kill him. He was locked up for the night.

Amicable Settlement.—A few days since Caroline Cornelius made information before Justice Barker, charging Geo. Mueller with seduction. The accused was arrested and entered bail for a hearing which was to have taken place yesterday, when the parties appeared and were married by the Justice, which, as a matter of course, ended the proceedings.

Runaway Accident.—Yesterday afternoon, a horse attached to a wagon, ran away in the Fifth ward, Allegheny. The wagon came in contact with a lamp post, and was shattered to pieces. A fragment glanced off and struck a bystander, Mr. John Good, on the leg, with such force as to fracture it below the knee. He received medical attention at his home in the vicinity. The animal was not hurt.

Temperance Fountain.—The temperance men are talking of erecting a small drinking fountain in the Allegheny Park. The Park Commission have decided to conduct the water from a couple of springs on the hills above Allegheny in iron pipes to the Park grounds. One of these streams the temperance folks design to use for a supply in their fountain. The water, if it can be brought so far, will be of the purest and coolest quality, and such a fountain would unquestionably be a popular resort.

Another Wanderer.—Thursday evening at a late hour, a young man giving the name of Gotlieb Suitman, was found by one of the Allegheny police, wandering the streets and giving every indication of insanity. He was locked up, and yesterday morning a ticket for Chicago was found upon him. He stated he had been working in Harrisburg, was a tanner by trade, and had relrtives residing near Elizabethtown, Pa. He is still at the lock-up where he will be detained until his friends can be heard from.

Severely Injured.—Adam McKinney, a man about sixty years of age, met with a serious accident yesterday, by which he was severely injured. It appears that he was riding with the driver in a brewer's wagon, coming down Penn street, and when near the Ninth ward market house, as the wagon was turning out of the track to pass a car, Mr. McKinney fell from the seat, striking his head on the cobble stone pavement, inflicting a severe wound. He was carried into Dr. Duncan's office, where his injuries were attended to.

Another Seizure.—We learn that a gentleman connected with the revenue department, a few days since, while visiting the house of a friend in the upper portion of the city, saw four barrels of ale rolled into the cellar from a brewer's wagon, not one of which had the required revenue stamp. The Collector was informed of the fact, and further investigation, we learn, led to the discovery of other frauds of a like character by the same brewer. The brewery, we learn, will be seized, and if the fraud is proven, it will be confiscated.

The Great Match betweeen the Atlantic Base Ball Club of this city, and the Baltic Club of Wheeling, is to take place at half past two this afternoon, at Union Park, Allegheny. The Baltics will arrive on the eleven o'clock train from Wheeling, and will doubtless be received and welcomed by their Pittsburgh rivals. The names suggest a victory for our boys, for the Baltic is but a puny sea compared with the Atlantic ocean, and the Atlantic Club must be very strong if their pitcher is a fair specimen of the rest of the Club, for Brosey, late of the famous Athletic Club of Philadelphia, and probably the swiftest pitcher in the world, now fills that position in the Atlantic. We suppose there will be a great crowd to witness the match, as it will undoubtedly be a good one, and besides the price of admittance for gentlemen is small and for ladirs nothing at all, facts which are generally popular ones.

Alleged Embezzlement.

Patrich Langon made information before Alderman McMasters, yesterday, charging Fred. Seigelsteil with embezzlement. The prosecutor is a soap manufacturer in Allegheny, and, it is alleged, employed the defendant to collect money for him. He alleges that the accused collected $96,10, which he neglected to pay over to his employer. Seigelsteil was arrested, and, in default of bail for a hearing, was committed to jail.

A Word to the Wise is Sufficient.

Those of our readers seeking homes, or investments in real estate, will save time, trouble and money, by procuring a copy of the "Pittsburgh Real Estate Register." There is such a vast amount of Property described in it, that the most fastidous cannot fail to get suited. It is given away "*Gratis*" by the Publishers, Messrs. Croft & Phillips, at their office, No. 139 Fourth avenue, or they will forward it, by mail "*Free*" to any address, "*Don't fail to get it.*"

A New Restaurant.

Mr. James Nicholson, of whose fitness for the enterprise several years' acquaintance gives us the highest confidence, has fitted up with excellent taste the room No. 24, Federal street, Allegheny, midway between the bridge and the railroad depot, and is this day opening the same to public patronage. The situation is well chosen for the many who pass and repass it daily. They cannot fail to be suited, and a trial will convince all that Mr. Nicholson is the right man in the right place. A free lunch of all that is good will be set up to-dav. A cordial invitation is extended to all.

THE MUTUAL PROTECTIONISTS.

Meeting at Turner Hall—What They Propose to Do—The Brewers Unite With Them—Concert of Action Recommended—Various Propositions.

That great terror to all violators of the Sunday law, who propose, by a strict enforcement of the same, against all parties, to make it so odious as to cause the people of all classes, parties and sects to clamor for its repeal, held a meeting yesterday, at Turner Hall, Sixth avenue, for the purpose of better organizing their forces, and receiving the general co-operation of all parties concerned in the liquor business.

Previous to their assembling, a meeting of the brewers of the city and vicinity was held at the same place to take into consideration the propriety of consolidating and co-operating with the "M. P's." The brewers organized by calling Mr. Lofink to the chair, and the election of a Secretary, whose name we did not ascertain.

The Chairman stated the object of the meeting, and after considerable discussion it was resolved to unite and co-operate with the tavern keepers, or "M. P's," as the only means of protecting themselves against the onerous liquor law now in existence.

The meeting then adjourned, and the "M. P's," assembled and were called to order by the Chairman, who stated for what purpose they had been called together, and asked if any one had anything to propose for the benefit of the society.

A number of propositions followed; but as they were made in the "teutonic tongue," with which our reporter is not particularly familiar, consequently we are able only to present one or two.

One member proposed to proceed against street railways alone, as it was ascertained that they were strictly liable under the law.

Another suggested the idea of "going for" all classes of persons not members of the Society who were known to be guilty of any infraction of the law.

Another more enthusiastic than his brother who seemed to think that the Society had already accomplished its purpose, proposed that all tavern keepers throw open their bars on next Sunday and sell liquor, indiscriminately to all who asked for and had the money to pay for it.

A number of other similar suggestions were made but no action taken upon any of them.

The Chairman then called upon Mr. Moore, one of the counsel of the Society, for instructions as to how they should proceed. Mr. M., in a quite lengthy speech, delivered the required instructions, advising the Society to endeavor to unite the entire whisky and beer influence, so that they might have concert of action. No information should be made against any individual without first consulting one of the Attorneys for the Society. He thought that there should be a committee appointed, whose duty it should be, when they contemplated proceeding against any railroad or street railway employes, to ride on the cars of the same and pay their money so that they might be competent witnesses. The attorneys, he said, would not be responsible for the failure of any suits which were brought without their advice and consent. The half of the magistrates in the city did not know how to draw up an information in a case of summary conviction, he said, and whenever there was a flaw in the information or any of the proceedings the court would dismiss the case at the cost of the prosecutor. There had been some talk about prosecuting members of the Society for conspiracy, but he would take it upon himself to say that no such action could be sustained.

It was then resolved to appoint a Committee.

A member suggested that the entire Society form itself into a Committee, such as had been recommended. The proposition did not seem to meet with general favor, and was not brought before the meeting.

A Committee of one from each ward was then appointed to hunt up cases and evidence, and report the same to the attorneys.

On motion, it was resolved to proceed against all parties who were found violating the law, after which the meeting adjourned.

A Foundling—Coroner's Inquest.

About eight weeks since, a male child apparently not more than two or three day sold, was left at the house of Mr. Goldstrong, who resides at Hamburg, near McKinney's Station, on the Pennsylvania Railroad. The infant was found snugly wrapped up, in a basket which had been left sitting in Mr. G's. door in the morning before anyone about the house was awake. Mr. G., not being situated so as to keep the child without some inconvenience, gave it to a Mr. Louis Schwartz, who proposed to adopt it, and named it Frank Schwartz. The little waif was properly cared for and appeared to be getting along swimingly with its new parents until within a day or two past when it took sick and yesterday morning died suddenly. Coroner Clawson was notified of the circumstance and at the request of Mr. Schwartz held an inquest on the body and a verdict of death form natural causes was rendered by the jury.

No clue has yet been ottained as to who the mother of the child is, and in all probability never will be.

Robbery at the Milk Depot.

Sometime during Thursday night, or Friday morning, the Country Milk Depot, at the corner of Fourth avenue and Ross streets, was entered by burglars, and milk tickets representing over $ 00 stolen. The demand for milk yesterday was unusally large, so that the supply was exhausted before one half the regular customers were served, and a noticable feature was that the customers were all supplied with tickets. Yesterday evening, John Tiernan, who resides in the vicinity of Hardscrabble, was discovered with a number of milk tickets in his posession, and officer Dressler arrested him. Upon searching him, one hundred tickets were found in his pockets; He was locked up, and will probably have a hearing this morning, It is alledged that the tickets were given to Tiernan by a little boy and that he intended to return them to the owner. He was a little too slow about the matter however, and will now be under the necesity of showing how he came in posession of the stolen property.

Fruit Jars.

Messrs. S. M. Kier & Co., Ne. 363 Liberty street, have on hand a fruit jar of their own manufacture, which we think fully meets the requirements of those who desire a neat, substantial, durable and cheap can or jar for putting up fruit. The jars are made of Queensware, of a neat pattern and in different sizes to suit purchasers. Each jar is supplied with a patent top, an ingenious arrangement which designates the kind of fruit the jar contains. They have also on hand a large and elegant assortment of Queensware of every discription of a very superior quality, which they sell at very reasonable prices.

The Work House—Removal of Prisoners.

We mentioned in Thursday's issue that the Business Committee of the Prison Board, in order that some of the cells in the jail might be torn down and the material used in the construction of the new building, had under consideration the propriety of having arrangements made at the County Work House for the reception of a number of prisoners, about fifty, which would relieve the old jail and admit of this plan. They consulted with the Committee having in charge the erection of the Work House and the result was a visit to the institution yesterday by the Prison Board and the Committee for this purpose. The party spent several hours in an examination of the building, and were unanimously of the opinion that with a little extra work the convicts might be accommodated, without any inconvenience, in a style much better than they are now enjoying. None of the cells of the building, although completed are yet ready for occupancy, on account of the dampness of the mortar, but there is however a large room, about fifty feet square, in the eastern end of the building connected with the female department, which will be completed and ready for occupancy in a few days. It was decided to have this room provided with bunks and fitted up temporarily as a sleeping apartment, which, owing to its size, ventilation, &c., seems admirably adapted for the purpose. It can be secured so as to prevent the escape of any of the inmates, or their communication with any other part of the building, except when working under the supervision of the Superintendent. For the cooking arrangements a temporary frame building will be constructed, large enough for a kitchen and dining hall, which can be completed and properly fitted up in a few days. The food will be brought from the city as required.

It is designed to make the men useful in excavating and grading off the ground around the house. a large portian of which has to be put in order and levelled previous to the building of the wall. This work would require a number of laborers, and occupy a considerable time and expense which it is thought can all be saved by the plan proposed. Their removal from the jail will also be a saving of several thousand dollars to the county, as the materials of their cells can be used as stated, while if not consumed in this manner it would prove a total loss. Every care will be taken in their treatment, and they will undoubtedly find the nature of the care far better than they could in the house on the hill. The contractors were notified to make the arrangements immediately and have everything ready for the reception of the prisoners on the 1st of August, when they will be removed.

The work on the building is progressing very satisfactorily, and it now begins to assume a definite shape and character. The expectation is that the whole will be under roof before the close of the present season. So far as completed, it presents a much finer appearance than the plan indicated, and when entirely finished is destined to be a model of architectural beauty, and perfectly adapted for the purpose, of its erection. Everything is being constructed upon the most approved principles, and the best workmanship is displayed in the execution of the plan. The visitors, after a thorough examination, were very much pleased with the manner in which the contractors were fulfilling their obligations, and were quite enthusiastic in commendation of what had been done.

After accomplishing the object of their visit, and partaking of the generous hospitalities of Messrs. Megraw and McDonald, who have charge of the work, the party returned to the city at four o'clock highly gratified at the success which had attended their plans.

Wanted a Ring.

Yesterday morning John Lincoln, a jeweler on Wylie street, came to the Mayor's office and made information charging John Barry with obtaining goods under false pretences. He alleges that during the morning Barry, who is quite a respectable looking young man, came to his store and asked to see some good rings. The rings were shown him, and he selected one valued at twelve dollars, and requested the jeweler to allow him to take it home to show it to his mother, and if it suited he would bring him the money, if not, he would return the ring. Lincoln demurred for a time, but being anxious to make a sale and presuming on the honest appearance of the young man, finally consented, and Barry left with the ring. After waiting patiently for over an hour, the jeweller became uneasy and started out in search of his ring, which he failed to find. He, however, succeeded in finding Barry, who, on being reminded of his promise to restore the ring or the money, stated that he had lost it in a cellar, and agreed to accompany Mr. Lincoln to the cellar to search for it. The cellar was visited but the ring was not found, whereupon the jeweller repaired to the Mayor's office and made the informatien as stated. Barry was arrested and taken to the lock-up, where he remains awaiting a hearing.

Disappointed His Landlady.

Disappointment is the lot of all, but coming in the manner it did to Mrs. Mary Parrot yesterday it is especially grievous. Mrs. Parrot is proprietress of a boarding house in the Third ward, and for several weeks has entertained a youthful boarder, John Irwin, until his bill amounted to twenty-five dollars. She then demanded payment, in the full expectation of receiving the funds immediately, but was put off with an excuse, by the boarder, for a few days. When the few days had elapsed the debtor was nowhere to be found, he had disappeared. Subsequent investigation revealed the fact that he still existed in another part of town, but was rapidly preparing for an exit from the municipality and the State, without making satisfactory arrangements for the settlement of his bills. Such are the statements of the lady, who immediately hastened to Alderman Mullen's office and made known her case, which caused a warrant to be issued for the arrest of John.

The Continental.

There are several institutions in this city having the above name, but we desire to call the attention of our readers to one in particular, one that will long be remembered by those who have been so fortunate as to visit, when hungry, we refer to Holtzheimer's Continental Dining Rooms, Fifth avenue, next door to the Postoffice. Mr. Holtzheimer has a personal supervision over the establishment and sees that everything is kept in the most perfect order. The cullinary department is under the charge of an efficient and experienced chief cook, and a corps of gentlemanly attendants are always on hand to receive and execute the orders of customers on the shortest notice. Meals served at all hours, from six A. M. until half past eleven P. M. Everything the season and market affords can be obtained at the Continental, served in any style to suit the tastes of customers.

The Fatality from Hernia or Rupture.

Hernia or Rupture, although not ordinarily a fatal malady, is one full of dangerous and evil consequences, and we feel that we confer a favor on our readers when we direct their attention to a place that stands the equal of any in the United States for the variety and perfectness of such appliances. Now and then we hear of deaths from strangulated hernia, and no one who is threatened in that way can be too seriously alive to the important necessity of early and appropriate management. The appliер of trusses in a community as densely populated as that of Pittsburgh, is as much entitled to adequate encouragement as in one out of every six of the male population are so afflicted, no words of warning can be too forcibly urged nor too frequently reiterated. People do not always suffer from rupture of the bowels through open neglect, but often from want of knowledge, where, and from whom, to seek the proper remedy. There are hundreds of persons who from infancy to boyhood and even manhood, defer attention in this respect for want of a proper appreciation of the seriousness of the malady of which we write. DR. KEYSER, at his great medicine store and office, No. 167 Liberty street, has qualified himself in a notable and praiseworthy degree, to meet every indication of hernia, besides any kind of business with which we are acquainted, especially when the immunity from danger, and the security to personal safety is afforded at a comparatively trifling cost. No branch of business is entitled, at our hands, to a higher regard than that which affects human life and health; and when we look around us, and note the fact that vast number of other abnormal conditions which appear to be, and perhaps are, strictly mechanical as in regard to the means to be used for their alleviation or cure. Rupture is one of these conditions, and one which entitles him to more than an ordinary share of public patronage—as well because of his extraordinary ability as because of the extra advertising which insures their publicity.

Car Brake and Starter.

Irvings Car Brake and Starter is designed to work a great change in the handling of street cars, wherever introduced. The invention consists of a simple arrangement of two drums, a strong spring, and a chain connected with the axles, all underneath the car and controlled by a brake on the platform which can be operated by a child.

When the car is to be stopped, the brake is applied, when the momenten, acquired in moving forward immediately winds the chain upon one of the drums containing the spring, and the vehicle is stopped within the length o itself.

Upon starting, the brake is loosed, when the spring recoils with sufficent force to start the car foaward without the aid of the horses, even though it be filled to overflowing with passengers. Thus all strain upon the horses in starting a heavy load is obviated which is the *desideratum* among managers of Street Railways. It is well known that the greatest wear of the animals consist just in this point, and an invention that does away with the difficulty, commends itself to every street railway company on the score of humanity as well as economy.

The invention was tried a few days ago, in the presence of a number of parties interested, and found to work like a charm. The car was loaded to its utmost capacity, but was moved forward by the spring with greater smoothness and ease than by the horses, and convinced every spectator of its great utility and success. It should be and will doubtless soon become general upon our street railways.

His Deserts at Last.

About three months ago John Allison was arrested in a house of ill-fame, in Allegheny, and committed to jail by Mayor Drum. While on the way to that institution he broke away from the policeman and made his escape. Since then he managed to keep out of the way until yesterday afternoon, when officer Jerry Smith, of the Allegheny police, saw him entering the circus in the Diamond, in company with two females. The policeman immediately cut short Allison's amusement and transported him to a different scene before the Mayor. He was about to be sent over when the females made their appearance and interceded for a short respite until they could secure the amount of the fine, in default of which he had been sent to jail. Their entreaties were favorably considered, and they departed on their mission. They had not returned last evening, but Allison may consider his release certain. What woman, in such a case, ever failed?

"He Leaves a Wife and Several Children in Destitute Circumstances."

How often do we see this or a similar sad conclusion to the announcement of the death of some industrious mechanic, who went forth to his daily toil in full health, and was brought home a corpse; or who lingered on a bed of suffering, made more horrible by the knowledge that death and utter poverty were approaching him and his little household together. And how often is it the fact when no such announcement is made? Reader are *you and yours exempt* from such a calamity? You cannot remain subject to it without shame, hardly without crime, when the remedy is within your easy reach, when two dollars a month deposited with the Co-operative Life Insurance Company will secure your family the certainty of from $1,000 to $1,600 at your death. We understand that the office of the Company, 128 Smithfield street, will be open in the evenings for the convenience of those who are employed during ordinary business hours. Go at once and make provision for those who are dependent on you.

Tobacco and Cigars.

The attention of the trade generally is called to the large and well selected stock of tobacco and cigars, pipes, &c., at John Megraws, No. 45 Hand street. Go Forward With the Times.

In this day of advancement, when the mechanical genius of the country is stretched to its utmost tension to invent anything and everything to lesson labor in the various industries, and promote the greater ease and comfort of humanity, it is idle for those persons representing sewing machines which fall within the scope of the one old original idea of the first patentee, to set at defiance all the new and grand complications brought into operation in later inventions. Might as well use the old tramway of scooped wooden rails as our steel tracks; the old hand press for the swift gliding four cylinder; the water course for the great motive power of steam, as to now employ in families the simple sewing machine which can perform no work outside of that embraced in ordinary plain stitching or basting together. We must go forward with the times. It is from this reasoning that the great American Button-Hole, Overseaming and Family Sewing Machine is so popular with the people. It not only accomplishes all the ordinary work of the family sewing machine but does ten fold more. It hems, tucks, binds, braids, sews on and over, works button holes, over seams and in short does as much and in as good and durable manner as though it were possessed with brains, and were guided by human impulse. It is *the* grand machine of the hour, and if its merits were fully known to the public, few other machines would have any sale whatever. Wherever tried it has afforded satisfaction and in this community alone, although but newly introduced, it has attained a popularity second to no other machine in the market. Mr. James Espy, corner of Fifth avenue and Market street, up stairs, entrance from Fifth avenue, is the sole agent for this section, and he invites all persons to call and see the machine perform its work, knowing such an exhibition is its best advertisement. The terms are easy and prices very liberal, placing them within the reach of all, benefitting the poor as well as the rich, and proving a blessing to both.

Wonderful.—Henry W. Burr, No. 49 West 14th street, while on a visit to the West, was attacked with severe illness from drinking impure water. Life was despaired of, and it was thought that he must die. His wife was immediately sent for, and in a day or two was at his bedside. Having herself seen the beneficial results from the use of PLANTATION BITTERS, she insisted upon their being administered to him, which was done, in quantities prescribed by the attending physician. The result was almost as if by magic, and in one-half hour from the time they were given her husband was out of danger, and by a moderate use of them three or four times a day, he was soon able to resume his journey to his home. This is but one case of many thousands that we know of.
